WILMINGTON

EXTRA ROOMS

Mean extra income! If your house is extra ample—if you can rent a room or two in it—your problem of "extra money" is easy. Of course, Want Advertising is necessary, though.

VOL. XCIV—NO. 134. WILMINGTON, N. C., WEDNESDAY MORNING, AUGUST 12, 1914 WHOLE NUMBER 13,725.

GREAT BRITAIN FORBIDS LANDING OF FOREIGNERS

Report That Such an Order Had Been Issued Causes Secretary Bryan to Cable Ambassador Page Instructions Late Last Night to Investigate Matter —Order Said "All Foreigners."

VIGOROUS PROTEST WILL BE LODGED IF TRUE

Order Would Prevent American Now on The Continent From Coming to England to Take Passage to America —Would Work Hardship on Those Already in London Awaiting Passage Home.

Washington, Aug. 11.—Reports that Great Britain has forbidden the landing of all foreigners on her shores caused Secretary Bryan tonight to cable Ambassador Page instructions to investigate and if he finds the report true, to lodge an urgent protest with the British foreign office.

Dispatches from consular representatives at Christiania, Norway, and Havre, France, said it was understood at those places that Great Britain was excluding all non-British subjects, regardless of their nationality.

Secretary Bryan, in his cablegram to Ambassador Page, emphasized the opinion that nationals of friendly powers should not be denied permission to land in England. Such a prohibition would seriously complicate the plans of the Washington government for the relief of Americans stranded abroad. Thousands of tourists on the continent are making their way to England, expecting there to board ships for home.

It was suggested tonight that any order issued by the British authorities in all probability would not be enforced against neutral foreigners desiring to land temporarily to await the sailing of a vessel for their own country.

SENATE PASSED AMENDMENT.

Authorizing President to Admit Foreign Vessels to U. S. Register.

Washington, Aug. 11.—The Senate tonight passed the bill to authorize the President in his discretion to admit to American registry foreign built ships less than five years old. The measure as it passed the House a week ago was amended by a vote of 26 to 25 to require American ownership of a majority of the stock of corporations seeking to register vessels hereafter acquired.

Opponents of the amendments which was offered by Senator Cummins, claim it will be stricken out in conference. During the day various similar proposals had been voted down, those leading the fight for the bill declaring any such limitation upon the President's discretion would destroy the measure's value as an emergency step to meet the situation created by the European war.

Another unsuccessful attempt was made to defeat the Jones amendment adopted Saturday authorizing the President in his judgment to admit foreign built ships to the trade between ports on the Atlantic and ports on the Pacific coast.

Senator Williams urged that this was a discrimination against the gulf coast and succeeded in having inserted an amendment to include gulf and lake trade in the provisions in the amendment.

WRECKAGE CAST UP.

Accident to British War Vessel May Have Happened Off San Francisco.

San Francisco, Aug. 11.—Flotsam cast up today on the shore south of the Golden Gatee and the presence outside of a German cruiser proved either that a British warship had cleared inhaste for action or that she had been torn by an explosion.

There was evidence to suppore either theory but the definitely established fact that the British protected cruiser Rainbow, now in the service of Canada did clear for action when she left here Saturday, seemed to outweigh the belief that there had been an explosion.

Brass door plates stamped "Gunner" and "navigating officer" showed the debris had come from a British warship. The badly splintered condition of the woodwork and the twisted and tangled metal fittings attached to it, together with the fact that nowhere could be found any marks of hammer, chisel or crowbar, made those who viewed it believe it had been blown loose by an explosive.

On the other hand, word came from the Canadian naval station at Esquimault that the Rainbow was known to have cleared for action. She might have been stripped of inflammable woodwork.

If there was an explosion it could not have been on board the Rainbow, for last night she was sighted off Cape Mendocino, 195 miles north of here. Those who clung to the explosion theory argued hte sloop of war Shearwater had been in trouble. The only other British vessel on the Pacific coast is the sloop of war Algerine. The German cruiser standing off this harbor was identified today by the American bark R. P. Rithet as the Leipzig. The captain of the bark also reported he had passed a mass of wreckage several miles off the harbor.

EMPEROR RECEIVED GERARD.

Told American Ambassador of Liege Victory—Report Delayed.

Berlin, via Copenhagen, Aug. 10.—to londom, Aug. 12 (2:20 A. M.)—Emperor William today received James W. Gerard, the American ambassador in the palace garden and conversed with him at length. The Emperor appeared to be in a serious mood but confident. He spoke of the capture of Liege, where he said the German and Belgian troops were about equal numerically. The Belgians, he added, were behind fortifications but the Germans charged with bayonets and destroyed everything. The Belgians were put to flight, abandoning arms in great numbers, he declared.

The German and British governments have requested the American embassy to intervene with the purpose of fixing a time for merchant men of the two countries to quit the ports of hostile countries.

Tuesday morning all Americans desiring to depart for the United States were called to the embassy to be enrolled.

The first list of losses in the fighting was published today. It contained only 64 names.

Many rumors are in circulation here. Among them are statements that Namur, Belgium, and Belfort, France, have been captured. There is no confirmation, but the reports are believed to be true.

VULCAN GOES TO EUROPE.

Naval Auxiliary to Take Supplies and Coal to Cruisers.

Norfolk, Va., Aug. 11.—With an American naval officer in command, the United States naval auxiliary Vulcan, just in from Vera Cruz, is preparing to get away for Europe for supplies for the American cruisers Tennessee and North Carolina, recently dispatched with funds for stranded Americans on the war stricken continent. The Vulcan is now at Newport News loading coal and supplies which will include flour and other foodstuffs.

Lieut. Com. Greensdale, U. S. N., detached from the battleship Michigan, will be in command of the Vulcan, having been assigned especially for the trip abroad.

GERMANS INVADE FRANCE.

British Military Expert Expresses Opinion as to Reports.

London, Aug. 12.—The Daily Chronicle military expert attaches the highest importance to the British press bureau's announcement that German troops are reported to be entrenching the line of the river Aisne. He says:

"This means the Germans in force have penetrated for a considerable distance into French territory from the Belgian frontier. This invasion is of far greater importance from a military point of view than the French movement into Alsace. The Germans must have penetrated in the rear of the French lines along the upper reaches of the river Aisne. The mere fact of entrenching suggests the presence of a strong body of infantry."

RACE IS CLOSE BETWEEN FORAKER AND HARDING.

Hogan Nominated for U. S. Senate by Democrats of Ohio.

Columbus, O., Aug. 11.—Returns received up to 10:30 o'clock tonight indicated a close race between former Senator Joseph B. Foraker and former Lieutenant Governor Warren G. Harding, for the Republican nomination for United States senator. The nomination of Attorney General Hogan for United States senator on the Democratic ticket was assured.

Governor Cox has defeated Congressman Whiteacre for the gubernatorial nomination on the Democratic side. The race for the Republican nomination for governor is in doubt, former State Senator David Todd leading in the cities as far as has been heard from, while Congressman Frank B. Willis is leading in the rural districts.

London, Aug .12.—A dispatch to the Standard from Massericht describes the wholesale cremation of bodies of German soldiers killed at Liege, as told by fugitives arriving there. During three successive nights after the fighting at Liege the ground contained their dead in heaps of thirty. Funeral services were held and military salutes were fired over each heap. The bodies then were burned.

BIG BATTLE HOURLY EXPECTED BETWEEN FRENCH TROOPS AND GERMAN ARMY NORTH OF VERDUN

The Respective Positions of Germans and Belgians at Liege Remain the Same—Germans Unsuccessful in Attempts to Drive French Back at Muelhausen—Forty-Five Thousand Japanese Soldiers Embark on Transports and Await Orders— Russia Will Complete Mobilization Soon.

Frer and German troops are facing each other to the North of Verdun. There have been ...merous clashes of a minor nature, probably preliminary to an extensive engagement in ... near future.

...e respective positions of the Germans and Belgians beofre Liege apparently are un...nged.

German forces are making careful reconnaissances in the district of Hesbaye, which is believed to mean that Germany will take the offensive North of Liege.

According to French reports, the Germans have been unsuccessful in their attempt to drive the French from their positions outside Muelhausen.

The British war office information bureau says there is reason to believe the German cruisers Goeben and Breslau, for which British and Franch warships were waiting, have taken refuge in the Dardanelles.

Clashes between Austrians and Russians so far have been of minor importance.

A Shanghai dispatch says 45,000 Jananese soldiers have embarked on transports and are awaiting orders.

A Copenhagen dispatch announces that Russian mobilization will be complete August 21st.

Several Australian warships have joined the British squadron in East Asiatic waters.

Recruiting goes on in London for over-seas service.

The Cunard Liner Lusiania, in her dash across the Atlantic has reached the Mersey in safety.

CLAIM GERMAN VICTORY.

Berlin Paper Tells of First Victory for German Arms on Frontier.

Berlin, via Copenhagen, London, Aug. 12.—The Lokal Anzeiger, dealing with one German victory at Buelhausen, Alsace, says:

"The silence of the western frontier following the brief but swift entry of small forces of French in Altkirch, has been broken by the brilliant news of our first battle at Huelhausen, the Weissenberg of 1914. But this fight was much more important than was that of Weissenburg, in 1870 (when the Germans won their first important battle of the Franco-Prussion war, considering the number of combatants engaged.

We understand the French had three divisions of about 55,000 men. The two divisions belonged to the Seventh army corps and also contained a portion of the Bensancon corps, whose members are among the elite of the French army. We do not know the extent of the artillery and cavalry engaged, but we believed that the French in Muelhausen have seen a new idea of the value of Krupp guns.

"Naturally the French would have fortified the positions at Muelhausen with earthworks, but an army like the Germany army, which takes fortresses by assault, would find themselves little troubled by such obstacles."

STORY OF NAVAL BATTLE.

Edinburgh Scotsman Prints Story of Eye Witness to Battle.

Edinburgh, Scotland, Aug. 12.—The Scotsman today prints the story of an eye witness of the naval battle between British cruisers and German submarines in which the submarine U-15 was lost.

"The cruiser squadron on Sunday," th story runs, "suddenly became aware of the approach of the submarine flotilla. The enemy was submerged, only the periscope showing. The attitude of the British in the face of this attack was cool and the enemy was utterly misled when suddenly the cruiser Birmingham, steaming at full speed, fired the first shot. This shot was carefully aimed, not at the submerged body of a submarine, but at the thin line of the periscope.

"The gunnery was superbly accurate and shattered the periscope. Thereupon the submarine, now a blinded thing, rushed along under water in imminent danger of self-destruction from collision with the cruisers above.

"The sightless submarine then was forced to come to the surface, whereupon the Birmingham's gunner fired the second shot of the fight. This shot struck at the base of the conning tower ,ripping the whole of the upper structure clean and the U-15 sank like a stone .

"The remainder of the submarine flotilla fled."

SEARCH FOR BELGIAN ARMY.

German Forces Try to Locate Field Forces of Belgians.

Brussels, Aug. 11, 2 P. M. via London. —Hostilities began Monday between German cavalry and Belgian cavalry outposts in the Hesbaye district. This district is west of Liege, and north of the Meuse and forms parts of the provinces of Liege, Limberg and Namur.

The Germans have begun a systematic reconnoitering of Hesbaye to discover the position of the Belgian field army. Their cavalry patrols are followed by infantry detachments.

German cavalry passed the outskirts of Lixh Sunday following a route to the south of the Province of Limburg to Tongress and St. Trond and evidently proceeding toward Hesbaye. Two hundred G rman cavalry with quick firers already have reached Hannut, 17 miles northwest of Liege.

Engagements have taken place principally along the lin ebetewen Tirlemont and St. Trond and half way between Esemael and Gussenhaven. There have been other engagements near Tongress. Th German cavalry is reported everywhere to have been repulsed with loss. These engagements are regarded as a prelude to a German offensive movement north of Liege. It is believed they may foreshadow more important fighting and a big battle in two or three days.

WAR OFFICE STATEMENT.

Admiralty Information Bureau Gives Out Short Statement.

London, Aug. 11.—The admiralty and war office information bureau gave out the following tonight:

"There is good reason to believe the German cruisers Breslau and Goeben have taken refuge in the Dardenelles and will be dealt with according to international usage.

"There also is good reason to believe the mass of German troops on the Western German frontier are distributed between Thionville (a fortified town in Lorraine, 17 miles north of Metz) and Liege, and that Lorraine is held comparatively lighter farther south.

"There is every indication that the Austrians have entered Alsace. It is believed the forts at Liege have not been taken."

According to international custom in time of war if the Goeebn and Breslau have taken refuge in the Dardenelles they will be compelled to coal within 24 hours and put to sea or else be interned until the end of the war. These two cruisers were reported from Athens as rounding the southern extremity of Morea, Greece, at full speed this morning. In what direction they were headed was not stated.

The bureau in another announcement said:

"The mobilization of the territorial force is at the point of completion. Some of the units of the force have accepted liability to serve over seas. Volunteers are being asked to follow their example.

"Kitchener's army, for which five thousand recruits have been enrolled in the past 12 hours, will consist of six divisions—Scottish, Irish, Northern, Eastern, Western and light brigades."

OCEAN ROUTE CLEAR.

Official News Comes to Montreal from Ottawa, Canada.

Montreal, Aug. 11.—News came officially from Ottawa tonight that the ocean route is clear from Montreal to Liverpool and that ships can sail in safety. It was believed tonight there would be pronounced easing of insurance and exchange on cargoes and that wheat now held in Montreal harbor would start speedily on its way to Liverpool. It will mean also that there will be little delay in the sailing of passenger vessels from Montreal and Quebec for Europe.

Col. Samuel Hughes, minister of militia, said tonight he had received enough offers from American citizens in various parts of the United States to compose four companies to go to the front.

FIGHTING AT TIRLEMONT.

Between Belgian and German Cavalry. Belgians Have Situation in Hand.

Tirlemont, Belgium, via London, Aug. 12.—Fighting occurred near here Tuesday between German and Belgian cavalry. Seven Belgians were killed and a few wounded. It is reported that 4,000 Germans are in the neighborhood, but the Belgians seem to have the situation in hand and the town is calm.

At 5 o'clock there was no sign of the enemy except for an aeroplane which flew over the station. A handful of Belgian soldiers fired at it, but without effect.

GERMANY WANTS TO TALK.

Code Messages to America Cannot Be Sent Through London.

Washington, Aug. 11.—Secretary Bryan today transmitted to Great Britain formal representations made by Germany on the subject of cable and wireless communication to and from a neutral country—such as the United States—to belligerent countries.

Germany sought permission to send code messages through London to the United States. As the American Government acts as a channel of communication in diplomatic dealings of one belligerent with the other, the message was transmitted to the British foreign office without comment by Secretary Bryan.

Should Great Britain continue to prevent Germany from sending sable messages through London to the United States, it is believed Germany will make a vigorous effort to have the United States remove its censorship on German-owned wireless stations.

Secretary Bryan today admitted the State Department is considering the relations between wireless and cable communications as affected by the neutral position of the United States.

The Hague convention expressly states that it is not obligatory on a neutral power to exercise censorship over either wireless or cable communication.

IN CONTACT WITH GERMANS.

French Troops Along Entire Frontier Engaged, Says Paris Report.

Paris, Aug. 12.—The French troops along the entire front are in contact with the Germans. At Mangeniesse, northeast of Verdun, the Germans attacked the French Monday night. The French, reinforced by reserves, then took the offensive and repulsed the Germans with considerable losses. A German battery was destroyed by the French artillery fire, and another was captured, with three gatling guns and ammunition.

A regiment of German cavalry suffered seriously. Near Monsel, a German battalion, with artillery, was repulsed. The German losses are said to have been heavy.

The village of Lagarde, in German territory, was taken by the French at the point of the bayonet. German forc s appeared at Longwy and demanded the surrender of the town, which was refused.

BATTLE REPORTED AT SEA.

Captain of Fruit Steamer Reaching Boston Tells of Fight.

Boston, Aug. 11.—A battle at sea between a British cruiser and a German cruiser, about 250 miles north of San Salvador, was reported by Captain Terjesen, of the Norwegian fruit steamer Loveland, which arrived tonight from Banes, Cuba.

The German warship finally was forced to flee, according to Captain Terjesen, who said several shots fell near his ship.

The battle, he reported, occurred Thursday night, August 6th, in approximate latitude 27 N., longitude 74 W., and heavy firing was in progress for half an hour. When the German cruiser moved away the British warcruiser moved away the British warship gave pursuit, shelling the fleeing vessel with her forward guns, while the German fired its after-batteries. Whether either ship was seriously damaged could not be learned.

GERMANS TAKE OFFENSIVE.

North of Liege According to Daily Mail's Correspondent.

London, Aug. 12.—The Daily Mail's Brussels correspondent sends the following under date of Tuesday:

"The Germans have taken the offensive north of Liege. Cavalry to the number of 10,000 are reconnoitering towards Tongres, St. Trond, and Herbaye.

"The Belgian papers state that 300 German troopers with quick firing guns have arrived at Hannut, 35 miles from Brussels.

"The Belgian infantry has repulsed the German scouts everywhere."

The Paris correspondent of the Daily Mail thinks, checked both north and south, the Germans soon will make the enighborhood of Arlon, which always has been the basis of their plan of campaign against France.

CURE FOR CHOLERA.

Salts of Thorium Put at Disposal of Red Cross in Europe.

Paris, Aug. 11.—In connection with the report of cholera among Servian and Austrian troops, announcement was made today that salts of thorium are an effective cure. The preparation will be put at the disposal of the Red Cross.

INDISCRIMINATE MINING OF SEA ENDANGERS COMMERCE

Ports of Four Neutral Nations and One of the Belligerents Practically Closed Because of Action Taken by Warring Powers—Great Britain Mines Sea Near Her Own Ports

UNITED STATES NOTIFIED BY BRITISH CHARGE

Condition of Americans Abroad Daily Improves—Financial Embarrassment Continues to be Felt in Only One or Two Places—Americans Will Make Their Way to Southern Ports to Take Passage Home.

Was...gton, Aug. 11.—Mining of the North Sea as part of the plan of the European war not only may close most of the Northern Europe ports to navigation, but the gold-laden cruiser Tennessee, the cruiser North Carolina and neutral passenger vessels bearing Americans from Europe will be confronted with new dangers.

The American government was advised formally during the day by the British embassy here, that inasmuch as Germany had been "scattering mines indiscriminately," Great Britain no longer could refrain from planting mines near her own ports.

Secretary Bryan said tonight Americans at home might rest assured that the passenger lines plying between Northern European ports would take no chances that would imperil life. It is believed that Americans in northern ports will remain there for the present or make their way south and southeast to such ports as Marseilles or Lisbon to obtain passage for the United States.

An itinerary for the cruisers Tennessee and North Carolina bearing millions in gold for relief of Americans has never been announced, but as both Great Britain and Germany have given warning of the dangers in the North Sea, it is being taken for granted here that neither of the American warships will venture into those waters. After touching at Falmouth, England, the treasure ships probably will land at some port in France and then head for the Mediterranean, endeavoring, it is thought, to reach Americans in both Germany and Austria from points in the Adriatic.

Neutral Nations Blockaded.

One diplomatist pointed out today that the ports of four neutral nations, Norway, Sweden, Denmark and The Netherlands, as well as one of the belligerents—Belgium—were practically blockaded through the promiscuous planting of mines in the North Sea.

The Hague convention, which regulates the use of contact mines, stipulates that the belligerents shall undertake to their utmost to render these mines harmless within a limited time and should they cease to be under surveillance to notify the danger zones as soon as military exigencies permit. Naval observers here believe, however, that in view of the titanic struggle, this article in the convention will be of little moment.

The formal memorandum presented by the British Charge d'affaires was delivered to the State Department so that ships under neutral flags might be turned back. It said:

British Memorandum.

"The Germans are planting contact mines indiscriminately about the North Sea in the open sea without regard for consequences to merchant men. The waters of the North Sea must therefore be regarded as perilous to merchant shipping of all nations.

"In view of the methods adopted by Germany, the British admiralty must hold themselves fully at liberty to adopt similar measures in self defense which must inevitably increase the dangers to navigation in the North Sea. But before doing so they think it right to issue this warning in order that merchant ships under neutral flags trading with North Sea ports should turn back before entering the area of such exceptional danger."

In only one or two places in Europe, notably at Genoa, Italy, and in Sweden does the financial embarrassment of Americans continue, according to reports received today by Secretary Garrison. The situation has improved so much that it may be unnecessary to deposit any gold in Europe for the relief of Americans. Nearly all of the European governments are believed to be desirous of establishing heavy credits with America to draw upon in payment for vast quantities of food and supplies of other kinds which they must have during the continuance of hostilities and for a long time afterwards.

Secretary Garrison thinks therefore, that as soon as the first panicky feeling is over and financial conditions have been readjusted, the mere announcement that the United States or an individual has deposited specia in an American bank subject to the draft from European countries will be sufficient to establish credit for Americans in Europe.

Gather at Seaports.

Everywhere on the continent, the scattered American tourists and business people who desire to leave are gathering at the seaports and arranging for transportation homeward. Mr. Garrison believes that, owing to the facilities offered by the regular steamship lines, it will be unnecessary to send more than one or two government vessels.

Official reports to the State Department from Hamburg today cleared up the last apprehension for the safety of Americans in the German Empire with the exception of those special cases which have been taken by Ambassador Gerard.

The little colony in Hamburg, accheerful and disposed to regard the situation as free from any danger whatever. Personal telegrams from Mrs. Benjamin Harrison, widow of the former President, stated that she was safe in S'Gravehag in Scandinavia. Senator Oliver, of Pennsylvania, cabled that he was in London and would return at the first opportunity.

The case of Archer M. Huntington and his wife who were reported arrested as spies in Nuremburg, is still in the hands of the German foreign office, which has made no answer as yet to the State Department inquiry through Ambassador Gerard.

COMMITTEE TO GERMANY.

Americans in London to Aid Those Marooned in Germany.

London, Aug. 11.—The American relief committee expects that by tomorrow arrangements will have been made with Walter H. Page, American ambassador at London, to send a committee to Germany with money for the relief of Americans there. The committee will be headed by John H. Finley, of New York, and will go to the continent under the auspices of the American Red Cross Society.

The cancellation of the sailings of steamers taken over by the British government and the lack of definite news concerning the dispatch of American transports have caused many Americans whose business compels their immediate return home to book at greatly increased prices, some as great as from $500 to $600 on steamers making special voyages. The regular lines continue to charge a maximum price of $85 for first class cabin tickets to the United States.

The American committee has refused to have anything to do with steamers on which higher prices for passages are charged.

NEUTRAL ZONE IN CHINA.

Has Not Been Settled—All Depends Upon Germany in Far East.

Washington, Aug. 11.—The question of establishing a neutral zone in Chinese waters, remains unsettled. Although it is believed some sort of an agreement providing for the neutrality of at least certain portions of the Far Eastern waters will be reached before many days, Secretary Bryan said today no "definite proposition" had been advanced.

Whether there will be aggressive movements in the Far East depends, in the opinion of officials and diplomats, principally on Germany, and there is a variance of opinion as to what Germany will do.

Attention was called to the fact that Japan refrained from active hostilities during the Chinese-Japanese war in or around the port of Shanghai, where there was a large international colony; and during the Russo-Japanese war Shanghai also was held by the two warring powers as virtually neutral ground.

WILL CLEAR VESSELS.

Of Belgian Register from New Orleans With Wheat for Belgium.

New Orleans, Aug. 11.—Belgian vessels will clear from this port for Antwerp with cargoes of wheat within the next few days, according to announcement tonight by L. DeWaele, Belgian consul general to New Orleans. The consul general stated he today received instructions from his government to clear as many Belgian bottoms as possible with wheat, the war risk to be assumed by the Belgian government.

AMERICANS LEAVE ANTWERP.

United States Consul Assisted by Belgian Officials Active.

Antwerp, via Paris, Aug. 11.—The American consulate assisted by the Belgian authorities, has succeeded in getting the majority of Americans away from Antwerp. The Red Star steamers Marquette, which sailed August 6th, and the Finland, which sailed August 8th, are carrying many passengers to the United States. There will be no more sailings from this port, which is closed.

LAST SAD RITES OVER BODY OF MRS. WILSON

Wife of The President Laid to Rest Beside Her Father and Mother.

IMPRESSIVE CEREMONY

Entire City of Rome Draped In Black.

President Shaken by Strong Emotion as Casket Was Lowered Into Its Final Resting Place—Return to Washington.

Rome, Ga., Aug. 11.—Mrs. Woodrow Wilson, wife of the Nation's President, was buried at Myrtle Hill cemetery here today. Her grave is beside those of her father and mother, almost within sight of the house in which she lived as a girl. Tonight the President was speeding eastward on his return to Washington.

Although thousands of visitors came to Rome today to do honor to the memory of Mrs. Wilson, a Sabbath-like quiet prevailed. The special force of police, augmented by members of the Georgia National Guard, found little to do beyond warning traffic from the streets through which the procession passed.

It was exactly 2:30 P. M. when the President's special arrived, and a few minutes later the casket, covered with grey broadcloth and surmounted by a single wreath of flowers, was lifted from the funeral car by eight of Mrs. Wilson's cousins and borne to the hearse. As the train steamed into the station, church bells throughout the city were tolled. A wide space had been cleared about the station, and the thousands of people assembled there stood back respectfully. Those who bore the casket were: Edward T. Brown, Atlanta; Robert M. Hoyt, Wade C. Hoyt and Nathan Hoyt, Rome; B. P. Axson, Savannah; Randolph Axson and Edward T. Brown, Jr., and Frank C. Gebreath, Atlanta.

The President, followed by Secretary and Mrs. McAdoo, Mr. and Mrs. Sayre, Miss Wilson, Prof. Axson and other near relatives and members of the party, quickly left the train and entered the carriages. The procession then moved through black-draped streets to the First Presbyterian church.

Friends and Relatives Gather.

More than 800 relatives and friends of the Wilson and Axson families were already gathered in the quaint little church which Mrs. Wilson used to attend when her father, Rev. Edward S. Axson was pastor there. The church was draped in black, with intertwined wreaths of white flowers. On one wall was a white marble tablet to the memory of Mrs. Wilson's father. Banks of flowers were piled high about the catafalque upon which the casket was placed.

As the President entered following the casket, Chopin's funeral march was played softly upon the organ. A simple short service was conducted by Rev. G. G. Snyder, the local pastor. The President, his daughters, Secretary McAdoo and Mr. Sayre occupied the front pew in the center, and back of them were other members of the family, Dr. Grayson and Secretary Tumulty. Two old-fashioned hymns, girlhood favorites of Mrs. Wilson, were sung by the church choir. Rev. Dr. Snyder then read briefly from the Scriptures and spoke of the beauty and charity of Mrs. Wilson's life.

As soon as the church service was ended the casket was carried to the waiting hearse and the short journey to Myrtle Hill cemetery was begun. School girls, dressed in white and holding aloft laurel branches, stood in line along either side of the streets through which the procession passed. Behind them were thousands of people with bared heads bowed, silent and sorrowful. The entire city was draped in funeral black.

The cortege was close to the cemetery when rain began to fall. The storm rapidly grew worse, the downpour soon becoming torrential. A tent erected over the grave gave partial shelter to the little family group, but the thousands of people who came to witness the burial were without protection.

Services at Grave Brief.

Services at the grave were brief and marked by impressive simplicity. The President stood with head bowed as the final rites were performed. As he stood there with his daughters, Mr. Wilson made no effort to control his grief. As the hushed voice of the preacher read the burial service, the President's form was visibly shaken by his strong emotion, and the tears streamed unchecked down his cheeks. Others of the party wept silently, softly. When the final benediction was pronounced the President slowly returned to his carriage. His eyes were as those of one dazed, but his step was firm and his face was stern and set.

After the casket was lowered to its final resting place, and the grave filled, vast heaps of flowers, the tribute of the nation, were piled high over the tomb. On the way to the cemetery the procession passed the house where Mrs. Wilson lived as a girl, and another spot above the banks of the Etowah river where tradition has it that she promised to become the future President's bride. Nearby was a statue to the women of the South, the inscription on which was written by the President a few years ago. On every side were scenes which recalled vividly to him the days of his young manhood and sweet memories of her who now lies in a grave in her old home.

Within less than four hours from the hour the funeral train arrived, the President and his party were once more on board their special cars, and the return journey was begun.

Remained by Grave.

President Wilson remained by the grave of his wife until the casket had been completely covered with concrete and steel. At the head of the grave there stands a plain, white stone, bearing the names of Mrs. Wilson's father and mother. It is understood the President will later have a larger monument erected.

As the President returned to his private car, he passed between double lines of National guardsmen standing at attention with their arms at "present." Several of Mrs. Wilson's former school mates were greeted by Mr. Wilson as he stood bareheaded outside his car. The special train left here a minute or two after 6 o'clock and soon afterward the President retired for the night. He had slept but little since Mrs. Wilson died, and showed the effects of his sorrowful vigil.

Prof. Axson tonight sent the following telegram to Mrs. Edward Elliott, Mrs. Wilson's only sister whosse illness in California prevented her from attending the funeral:

"We have buried sister beside father and mother."

Delicious Concord Grapes—Phone your grocer. (advertisement)-11t

BEGIN TRANSFER OF CITY TO CARRANZA

Mexican Capital Will be In Rebel Hands Soon.

CARBAJAL TO COAST

Federal Army Retire From Mexico City and Open Negotiations—Villa May Start Revolution in The North.

Washington, August 11.—The peaceful transfer of the Mexico City government from the Carbajal administration to the Constitutionalists actually began today, according to official advices to the State Department.

Federal troops evacuated the capital, leaving the city in charge of municipal police who by agreement were to be regarded as neutral. The Federals withdrew to a nearby point, there to await an announcement of amnesty from General Carranza. Should guarantees be refused, officials here do not doubt that an immediate counter revolution will be set in motion.

The Brazilian minister to Mexico, who is caring for American interests, Governor Iturbide, of the Mexican Federal District, and a commission of two others, left today for Tula, north of Mexico City, where General Obregon, commander of one of the three big Constitutionalists army divisions, has headquarters. General Carranza is expected to go there immediately. The commission is endeavoring to arrange details of the Constitutionalist entry. No definite word had been received here up to late today as to Provisional President Carbajal, but it was understood he would leave the capital for Vera Cruz within 24 hours.

With the Constitutionalist entry into Mexico City the question of recognition for the new government will confront Washington. There is every reason to believe it will be withheld until there is an election, or political convention at which there is some expression of the attitude of the people toward new government. Disquieting advices again are coming from reliable sources that General Villa will not obey Carranza's orders to march south, but will remain in the North and demand a convention of representatives of the army as agreed to in the Torreon conference. Should Carranza refuse this, a new revolution in the North would not surprise many high officials here.

Secretary Bryan's attention was drawn by the Japanese minister today to a report that the honorary Japanese vice consul at Manzanillo, a Mexican, had been arrested by the Constitutionalists. Secretary Bryan sent a message of inquiry to American Consul Silliman.

In the same message was an instruction to secure the safety of the 200 Japanese in the city of Mexico when the Constitutionalists occupy the capital.

MAZATLAN EVACUATED.

Federal Forces Retire from City—Captive Officers are Shot.

On Board U. S. S. California, Mazatlan, Mex., August 10.—(Delayed in transmission)—The evacuation of Mazatlan by the Federal garrison and its occupation by the Constitutionalists tonight was complete. Fifteen Federal officers and two volunteers were executed in the presence of all the Federal prisoners assembled at the customs house. One of the doomed men was given time in which to compose a letter to his wife. The bodies were left all day in the sun where they fell.

The city is quiet. There was no looting. American navy surgeons on board the California turned over the ship's hospital department to wounded Constitutionalists and lent their professional services.

MEXICAN BANKS REOPEN.

Clearing House at Mexico City Decided on Action Yesterday.

Mexico City, Aug. 11.—The clearing house today decided to reopen the banks, ordered closed yesterday. This step was taken in view of the fact that congress failed to dissolve and President Carbajal had not decided to resign.

It is reported on good authority tonight that the Brazilian minister, who, together with the minister sof Great Britain and Guatamala and French Charge d'Affaires, left the city today to visit General Obregon, the Constitutionalist leader, at his headquarters at Teloycan, had gone beyond that town to a point not made public, where he will meet General Carranza.

It is said that the minister will spend the night with Carranza discussing the capitulation of the capital. He will lay before President Carbajal the results of the conference on his return here tomororw. Despite active military preparations made last night and the statement of General Velasco, minister of war, that "we will ght until the last man before we will evacuate unconditionally," well informed persons sill believe the peaceful recapitulation of the city is probable.

FAYETTEVILLE PAYS RESPECTS.

Postoffice and Business Houses Close for Funeral—Bell Tolled.

(Special Star Telegram.)

Fayetteville, N. C., Aug. 11.—All the stores and the postoffice of Fayetteville were closed for fifteen minutes this afternoon to honor the memory of the President's wife, while the town bell in the tower of the old market house, was tolled at the hour of the funeral.

FINANCIAL CONDITIONS REMAIN ABOUT THE SAME

Lines of Defense Are Strengthened by American Financiers—Plans to Finance the Storing of Three or Four Million Bales of Cotton to be Held Until Next Year Are Begun—Government May Need Additional Revenues.

New York, Aug. 11.—Beyond a further strengthening of the lines of defense, conditions in the financial community today assumed no new aspect. There were numerous conferences regarding general conditions, but it is becoming increasingly evident, according to observers, that any initiative looking to the resumption of normal business must come from abroad.

Foreign advices threw no new light on this phase of the situation, albeit communication with London was more frequent in the course of the day. Such war news as was available, whether from London, Paris, or elsewhere, lent little encouragement. The banking community was thrown into excitement because of reports that the Bank of England held in contemplation the establishment of a branch in Canada.

Such a move was viewed with concern because it carried implications of an attempt to build up credits here, with resultant drains upon American gold reserves. While the report lacked confirmation it was declared by financial authorities that any effort to encroach upon this country's gold holdings, pending adjustment of the foreign situation, is likely to meet with complete failure.

Money continued to lend at 6 to 8 per cent, many loans being made at the higher figure. In explanation of this it was said that out-of-town banks had directed their local correspondents not to make loans under the maximum rate, because they themselves were paying approximately that figure for clearing house certificates.

Maturing loans were not always renewed, some instructions showing a more direct disposition to build up reserves. Southern cotton banks were again active in the money market, but further shipments of emergency currency to those sections and the introduction of a cotton emergency bill in the Senate today are calculated to ease the strain in that quarter.

TO FINANCE COTTON CROP.

National Legislative Body Will Consider Plans This Week.

Washington, Aug. 11.—How to finance the storing of three or four million bales of cotton to be held for next year's market because of the closing of the cotton markets of Europe by war, was taken up at hearings today before the public agricultural committee. Cotton growers, dealers and bankers of the South began presentation of their view on the situation.

While the House committee was listening to statements of the cotton men, Southern senators were conferring on further means of relievig financial stringency in the South. As a result of their deliberations amendments to the Aldrich-Vreeland section of the currency law were introduced to increase from 30 to 75 per cent the amount of currency that may be issued on commercial paper; to recognize cotton and other staple receipts, drafts, etc., as commercial paper upon which 75 per cent of the currency may be issued; and to assure State banks joining the reserve associations of participation in emergency currency distributions. The amendments were referred to the banking committee for early consideration.

Before the House committee James F. Hunter, a Memphis banker, said the extension of emergency currency and government funds to cotton growers with their product as security would finance the situation. W. G. Turner, of the Memphis Terminal Corporation, a warehouse concern, explained the need of caring for the physical product by means of warehouses. He sketched a scheme of temporary warehouses in whch the surplus product might be stored until next year.

Members of the committee estimated that three or four million bales would have to be carried over and next year's crop correspondingly curtailed to prevent a gross over-suppiy in 1915. One witness today estimated that at least $5 a bale would be required to finance storing.

Commissioners of agriculture of the cotton States and representatives of the Southern Farmers' Union will be heard tomorrow.

NEED MORE REVENUES.

Congress Will Consider Plans to Raise Funds to Meet Deficiency.

Washington, Aug. 11.—Administration leaders have concluded that additional revenue legislation eventually will be needed on account of falling off of import duties, curtailed by the European war. House Majority Leader Underwood said today he expected soon to confer with Secretary McAdoo over plans and the amounts necessary to be raised.

The Ways and Means committee already has called for a detailed statement of the condition of the Treasury and the situation as to reduced import taxes. It was estimated today that legislation would be framed which would contemplate raising a "war tax" of approximately $100,000,000. While no plans definitely have been determined, it is expected the tax will take the shape of a stamp import on malt and spirituous liquors. An increased import duty on tea and coffee may also be considered.

In order that revenue legislation may have the right of way, the House today embodied in a special rule giving conservation legislation precedence, a clause exempting revenue legislation. Republican leaders have assured Mr. Underwood that while they reserve the right to criticise any revenue legislation proposed, they will not resort to obstructive tactics to prevent its passage in an emergency.

INVESTIGATE "WAR PRICES."

Increase in Price of Food Stuffs Draws Attack in Congress.

Washington, Aug. 11.—"War prices" for food in the United States resulted today in introduction in the House of four resolutions asking investigation. All of the measures proposed inquiry into the reasons why, when American bumper crops are deprived of their foreign markets, the price of foodstuffs should go up in the domestic market.

Representatives Moore, Kelly and Farr, of Pennsylvania, called on the executive departments for inquiry into the cause of high prices, and Representative Donahoe, of Pennsylvania, proposed the creation of a special House committee to investigate.

BLAMES THE FARMERS.

Chicago Dealers Say They Are Holding Stock for Higher Prices.

Chicago, Aug. 11.—An increase in the market for food supplies because of the European war, together with charges that farmers and stock raisers are holding hogs and cattle for further price advances, were listed today as causes for a considerable increase in prices at which foodstuffs are being sold.

An investigation whether the prices are justified will be begun by a Chicago council committee which, according to its chairman, will meet with State officials, heads of civil organizations, expert economists and representatives of wholesale and retail dealers.

"Retail prices are going up no faster than the cost of raw material," said F. E. White, a director of Armour & Company today. "All classes of meat are advancing. This is only natural because we are called on to live off our own supply of cattle and hogs and at the same time Europe wants to buy from us, being unable as yet to import from South America and Australia."

A comparison of retail meat prices shows an increase since ast week as folows:

	Today	Saturday
Round steak	25-28	22
Sirloin steak	28	25
Porterhouse	35	30-32
Rib roasts	28	25
Pork chops	30	22-24
Lamb chops	30	25
Leg of lamb	24	22
Veal steak	35	30-32

Similar advances have been made in the prices of other foodstuffs within ten days as follows:

	Now	Aug. 21
Flour, barrel	$6-$7	$5.50-$5.75
Supar, pound	6-7c	$ 1-2c
Eggs, dozen	30c	26c
Lemons, dozen	35-40	25c

Retail meat dealers blame the wholesalers and a meeting of the United Butchers' Association has been called for Thursday.

SUGAR GOES UP.

Prices on New York Exchange Soar. New High Records Made.

New York, Aug. 11.—The sugar market continued to soar today and new high records were made in both raw and refined. Sales of Cubas occurred at 4 1-8 and 4 1-4, basis 96 test. Centrifugal equalled 5.14 to 5.27 duty paid. Fine granulated was advanced to six cents by some refiners and to 6 1-2 cents by others with sales of 50,000 bags reported to the United Kingdom. The domestic demand is also large and withdrawals are very heavy with some of the refiners already behind on the orders.

LIVERPOOL MAY AID.

In the Evening Up of Commitments on This Side Prior to War.

New York, Aug. 11.—Cable advices received here from Liverpool today indicated that the cotton trade association there has taken steps which might expedite liquidation of straddle accounts, and thus promote the work of evening up commitments here. Except for the talk of better progress in the closing out of international accounts local traders reported little change in the situation. Liverpool announced that a notice of 24 hours would be given before the futures market there reopened.

NORTH STATE GETS SHARE

Of Two Million Dollar Appropriation for Militia Supplies, Etc.

Washington, Aug. 11.—Announcement was made by the War Department today that out of the total of $2,000,000 annually appropriated by Congress for apportionment among the States for the purchase of supplies and ammunition under the militia law, $1,599,362 has been set aside by the Secretary of War for that purpose during the fiscal year 1913. The remainder, amountin gto $400,637, has been reserved for special allotment from time to time at the discretion of the Secretary.

The amounts alloted to South Atlantic States for the fiscal year 1915 are as follows:

Florida, $13,781.50; Georgia, $35,517.69; North Carolina, $30,344.94; South Carolina, $20,922.24; Virginia, $37,004.81.

BALTIMORE'S PROTEST.

To Selection of Richmond As Reserve City Taken to Washington.

Washington, Aug. 11.—Baltimore's protest against the selection of Richmond as a Federal reserve city was brought to Washington today by counsel for the Baltimore banks. The Federal Reserve Board advised that the appeal from the organization committee be filed Friday, after the board has completed its organization.

Senator Hithcock, of Nebraska, also has asked the board to fix a date for hearing the claims of Nebraska to inclusion with Chicago, instead of the Kansas City Federal Reserve district.

WAS AN ACT OF GOD.

Supreme Court Does Not Hold Railroad Responsible for Snow Slide.

Olympia, Wash., Aug. 11.—The snow slide at Wellington, March 11, 1910, when two Great Northern trains were wrecked and 92 persons killed, were caused by an act of God, according to a ruling today of the State Supreme Court in the case of William Topping, of Ashland, Ohio, against the Great Northern Railway Company.

The lower court allowed the boy $20,000 damages for the death of his father, killed in the wreck, but the Supreme Court says the railroad cannot b eheld responsible.

—Jesse Blount, colored, was arrested last night by Policeman W. R. Applebury, and lodged in the city prison on a charge of assaulting a female.

—Beulah Pickett, colored, was arrested by the police last night on a charge of disorderly conduct.

NEW HAVEN AGREES TO FEDERAL PLAN

For The Dissolution of the New England System.

LEGAL ACTION STOPPED

Howard Elliott Elected President to Succeed Hustis—Billard Resigns As a Director of Railroad—Word to Washington.

New York, Aug 11.—An agreement has been reached between the Government and the New York. New Haven & Hartford Railroad Company for the peaceful dissolution of the New Haven system, according to an announcement after a meeting here late today of the road's directors.

President Hustis resigned as a director of the New Haven, as on Saturday he is to become president of the Boston & Maine. Chairman Howard Elliott was elected president of the New Haven. The resignation of John L. Billiard was accepted.

The announcement said:

"A meeting of the board of directors of the New York, New Haven & Hartford Railroad Company was held this afternoon. After the meeting President Hustis said that in pursuance of the hope xpressed in his statement of July 21st that a way still might be found to accomplish the peaceful dissolution of the properties, an agreement had been reached, which substantially is a renewal of the original agreement between the Attorney General and the company, except as to the Boston & Maine stock and is in accordance with the vote of the stockholders at New Haven April 21, 1914, authorizing a settlement with the Government.

"President Hustis said in conclusion that this arrangement having been accepted by the Attorney General, had been ratified by the board of directors at the meeting today and that the members of the board highly appreciated the courtesy of the Attorney General and his cooperation in their endeavor to solve the problem without inflicting unnecessary loss upon the shareholders and to effect a rehabilitation of the property in the interests of the public.

"President Hustis resigned as a director of the New Haven, as on Saturday he becomes President of the Boston & Maine. Chairman Elliott thereupon was elected president of the New Haven. The resignation of John T. Billard was accepted

WORD TO WASHINGTON.

Attorney General McReynolds Gratified With Result of Meeting.

Washington, Aug. 11.—Attorney General McReynolds received word tonight from New York that the directors of the New Haven railroad have agreed to his terms for a peaceful dissolution of the system which will put an end to the court proceedings begun there several weeks ago.

Department of Justice officials, asked some time ago if there were any possible way to avoid fighting the suit through the courts, replied the only way to carry out the terms of the agreement for dissolution made months ago. Attorney General McReynolds, however, made his demands regarding the separation of the Boston & Maine stronger than formerly.

In the old agreement the trustees were to hold the New Haven's Boston & Maine stock for two years and a half. Under the present understanding they will hold it for only one year. The Attorney General is expected to see that they are in no way interfered with by the New Haven. They are expected to dispose of the stock in twelve months, but failure to do so on reasonable grounds probably would lead to an extension of time. The Interstate Commerce Commission, under the present arrangement, is to decide whether the New Haven shall retain its interest in its so-called sound steamship lines.

The whole agreement will be embodied in a decree which will be accepted by both the Government and the proper railroad officials and submitted to the United States Court of New York for approval and record.

The criminal prosecution of New Haven directors will not be effected, department officials said tonight. The Federal Grand Jury will have the case in September.

BASED ON COMPROMISE.

Agreement Reached Between Government and New Haven Road.

Boston, Mass., Aug. 11.—The agreement for dissolution of the New York, New Haven and Hartford railroad system, announced tonight, was based on a compromise by which the road accepted tentatively the bill passed by the last legislature giving the State the right to purchase the stock of the Boston and Maine, if was learned tonight.

Under the agreement the Federal court is to oreturn an agreed verdict in the Governments' suit against the New Haven and the road is allowed one year in which to petition the legislature to amend or appeal the bill. The provisions of the agreement, it is understood, are identical with those originally announced.

WARSAW NEWS NOTES.

Rains Threaten to Damage Crops—Hon. Geo. E. Hood to Speak.

(Special Star Correspondence.)

Warsaw, N. C., Aug. 11.—Following the dryest spring and early summer that this section has experienced in 50 years, the rains which have fallen during the past week threaten to do as much damage as the dry weather did if it continues. Each day since last Monday, more or less rain has fallen, and on some of the days, it has rained very hard, washing the roads, and accompanying storms doing a large amount of damage to the crops.

Hon. George E. Hood, of Goldsboro, Congressional nominee of this district, is to speak at Sarecta, a country village a short distance from here, on Saturday, the 22nd. The county candidates for the various offices will also be present, and a big political rally will be held, as well as a picnic by the people of that village.

The I. O. O. F. Orphans' Class gave a very entertaining recital here last night to a large audience.

EXPECTED TO ORGANIZE CURRENCY ASSOCIATION

Meeting of Carolina Bankers at Raleigh Today.

Raleigh Bankers Confident Organization Will be Result of Conference—Chamber Discusses Situation.

(Special Star Correspondence.)

Raleigh, N. C., Aug. 11.—Raleigh bankers are confident that the special conference of bankers of the State, called to meet here tomorrow by President T. E. Cooper, of the North Carolina Bankers' Association, will result in the formation of a North Carolina division of the National Currency Association. It is the perfecting of this organization that will enable the North Carolina banks to enjoy additional bank note circulation under the act of Congress authorizing issues to 125 per cent of the capital and surplus.

There are 20-odd of these National Currency associations already formed in various parts of the country and others are forming daily under the encouragement of the United States Secretary of the Treasury, who is anxious to have these under the law of 1908. Numbers of the larger cities in the country are forming associations of their local bankers without reference to the State organization. It is expected that the utilization of the privilege of issuing bank note circulation to 125 per cent of capital and surplus will enable the banks to take care of the movement of crops this fall with complete ease in spite of whatever depression this country may feel from the European war conditions.

Discuss the Situation.

The Raleigh chamber of commerce held a meeting tonight at which, under the leadership of President Jno. C. Drewry, there was general and optimistic discussion of the business conditions here and throughout the country under the European war conditions. In his call for the fullest possible this expression: "Sherman said used this expression: 'Sherman said 'war is hell'. If this sentiment is true, and we people of the South have no reason to doubt it, then, indeed, is the world at the present time full of hot stuff."

The chamber is especially well pleased at the extensive street and other internal improvements that the city commissioners are pushing forward at this time.

M. V. Richards to Speak.

President Drewry, of the chamber of commerce, announces that he has secured a promise that M. V. Richards, of the land and industrial department of the Southern Railway, will deliver one of the principal addresses for the annual meeting and banquet of the chamber to be held September 8th.

SOUTHPORT CROWDED WITH VISITORS THIS SUMMER

Nicaria Discharged From Quarantine—News Notes.

(Special Star Correspondence)

Southport, N. C., August 11.—With fewer accommodations for visitors than in former years, Southport has more visitors within its borders today than in any previous year. Just where they go at night, and this means to retire after a day and part of the night put to amusements of all kinds that go to make up the entertainment bill of a place like this, only the visitors, themselves, could disclose. They have good times, and this brings them here again.

The Pavilion has offered entertainment each night during the encampment, for those who dance, no matter the weather. Of course, the tango is the favorite, and it can be seen danced with grace and skill every night.

To add to the amusements, Haraden's Vaudeville Show arrived Sunday night in two gaily painted cars over the W. B. & S. and has pitched its tents just outside the big grove, and is here for a week's stay

After adding to the shark catching stories of this place, Messrs. Cotton and Laclaire, went at it yesterday to make more reputation in the piscatorial line, this time catching from the Wilmington dock, 8 red drum, one weighing 31 pounds. Sharks are still fairly numerous in the river, indicating plent of small fish.

Last Thursday and Friday, three games of base ball were played at the Fort, between a team from Faison and the Post team. The game Thursday was a runaway for the Post, 17 to 6, the first game Friday was close, 2 to 1 in favor of the Post, and the last game also went to the Post, 8 to 3. Large crowds went from here to the games, while all the soldiers were out, making a large crowd, which got pretty wild at times

The Farmers Union of Brunswick county had its annual gathering last Friday, at Bolivia, there being 150 present, who enjoyed the addresses of State Organizer Green and R. W. Davis, Esq., of Southport, and a great picnic dinner.

The Hamburg-American line steamship, Nicaria, was discharged from quarantine, yesterday, and went up the river, today, to discharge her cargo of coffee. The Nicaria has been an object of great interest to the hundreds of visitors here during the week.

The Cape Fear Fox Hunters Club, which has made its outing here annually, for several years, will gather at Shallotte, this county, for its annual meet, this season, beginning today. It is said there will be several packs, aggregating one hundred pounds. The membership is up country sports who love to follow the hounds.

Chauffeur is Arrested.

Fred D. Baker, colored, chauffeur for Hon. John D. Bellamy, was arrested yesterday afternoon on a warrant charging him with violating the prohibition law. It is alleged that he has been selling intoxicating drinks in the vicinity of Wrightsville Sound. He gave bond with W. M. Bellamy, Esq., as surety, and will be tried before Justice Harriss later in the week.

San Francisco, Aug. 11.—The cruiser West Virginia and South Dakota returning from Honolulu arrived here today. They made the trip to the Hawaiian Islands last month, each towing a submarine.

SPORTS

WORLD'S RECORD EQUALLED; TRACK RECORD BROKEN.

Kalamazoo, Mich., Aug. 11.—With a world's record equalled and the track record broken, the grand circuit meeting opened auspiciously today at Recreation Park. In the first heat of the Horseman and Spirit of the Times futurity for three-year-old pacers, Anna Bradford pased a mile in 2:05 1-4, equalling the record for three-year-old fillies made by Miss DeForrest at Lexington, Ky., in 1911. In the final heat of the 2:04 pace, Walter Cochato made the distance in 2:02 1-4. The former track race record was 2:05 3-4.

The 2:08 trot went four heats and was carried over until tomorrow.

May Mack took the first two and looked to have the race won but Omar won the third and fourth.

In the 2:24 trot, purse $1,000, Margaret Ruein, favorite, lost the first heat to McCloskey and then captured three in a row. The 2:04 pace went to Walter Cochato in streight heats.

COBB CONTRACTS FOR TO PLAY THREE MORE YEARS.

Detroit, Mich., Aug. 11.—Tyrus Cobb, prize centerfielder of the Detroit American League team, today set at rest reports that he intends jumping to the Federal League, when he signed a contract to play three more years with the Tigers. The contract does not contain the ten-day clause. Neither does it carry an increase in salary said to be $15,000 a year. The contract under which Cobb is playing contains the ten-day clause, but it will expire at the end of the present season.

When Cobb completes the three seasons for which he has just signed he will have played 13 years with Detroit.

WOULD NOT BE PROPER TO HOLD RACES THIS YEAR.

New York, Aug. 11.—The New York Yacht Club does not consider it proper for the races for the America's Cup to be held this October in view of the European war situation. G. A. Cormack, secretary of the club ,today cabled H. L. Garrett, of the Royal Ulster Yacht Club, the following :

"We regret that in view of grave conditions, due to the war, we do not think it proper to race in October. We are willing to postpone the series until 1915. We request cable reply as soon as possible."

TEAMMATES PULL OFF FIGHT ON BASE BALL FIELD

Brooklyn, August 11.—Roger Bresnahan, catcher, and Henry Zimmerman, third basemen of the Chicago Nationals, engaged in a fist fight on the diamon dtoday which resulted in both men being ordered off the field. A wild throw by Zimmerman caused Brooklyn to score two runs in the sixth inning when Chicago was leading two to nothing. The throw angered Bresnahan and he directed remarks to Zimmerman, who took offense at same and a fight followed.

Death of Young Son.

Many friends will sympathize tenderly with Mr. and Mrs. James Rackley in the death of their one-year-old son, Rudolph, which occurred Monday evening at 7 o'clock. The funeral was conducted from their home, No. 106 Dawson street, yesterday afternoon at 4 o'clock by Rev. J. P. King. The interment was in Bellevue cemetery.

Four days left of Polvogt's Clearance Sale. Have you been attending?—Advertisement.

How to Absorb an Unlovely Complexion

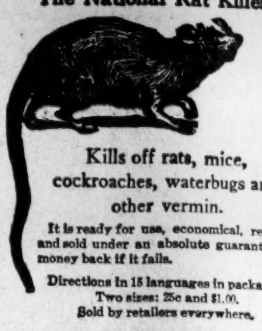
(Phyllis Moore in Town Talk)

The face which is admired for its beauty must have a satin-smooth skin, pink and white and youthful looking. The only thing I know of that can make such a complexion out of an aged, faded, or discolored one—I mean a natural, not a painted, complexion—is ordinary mercolized wax. This remarkable substance literally absorbs the unsightly cuticle, a little each day, the clear, healthy, girlish skin beneath gradually peeping out until within a week or so it is wholly in evidence. Of course such blemishes as freckles, moth patches, liver spots, blotches and pimples are discarded with the old skin. If wou will procure an ounce of mercolized wax at the drug store, use like cold cream every night, washing this off mornings, you'll find it a veritable wonderworker.

Another valuable natural treatment is a wash lotion to remove wrinkles which can be easily prepared. Dissolve 1 oz. powdered saxolite in ½ pt. witch hazel. Bathe the face in this and you'll find it "works like magic."

Stearns' Electric Rat and Roach Paste

The National Rat Killer



Kills off rats, mice, cockroaches, waterbugs and other vermin.

It is ready for use, economical, reliable and sold under an absolute guarantee of money back if it fails.

Directions in 15 languages in package. Two sizes: 25c and $1.00. Sold by retailers everywhere.

At any soda fountain or carbonated in bottles—5c.

Genuine refreshment, starts quick as the first delicious drop of Pepsi Cola moistens your tongue. Lasts long as the fruity tart juices and oils stay in your system and mix with your blood. Not so sweet as some others—it stops thirst — doesn't produce more! Anybody can drink it and feel better.

Pepsi Cola gives you natural refreshment in a perfectly natural way. It's pure. Cools off body—wakes up mind. It isn't medicine—it's pleasure and benefit all day long! Do you drink Pepsi Cola? One glass, then a second, will prove it is better than them all. Try it. You're thirsty. NOW.

WILMINGTON, N. C.

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY, INC., Wilmington, N. C.

Entered as second class matter at the postoffice at Wilmington, N. C., under Act of Congress March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily and mailed to subscribers outside the city at $6 per year; $3 for six months; $1.50 for three months; or served by carrier in the city at 60c. per month, or, when paid in advance, $7.00 per year; $3.50 for six months; $1.75 for three months.

THE SUNDAY STAR by mail, one year, $1; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate and like matter will be charged at the rate of 10 cents per line, to persons carrying a regular account, or, if paid cash in advance a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to the readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51. Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and, if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders and postal money orders for the paper should be made payable and all communications should be addressed to

THE WILMINGTON STAR CO.

WEDNESDAY, AUGUST 12, 1914.

"War-torn Europe"—The press.

Sell your corn and hold your cotton.

The war poets are now firing on the newspapers.

The bellicose Belgians held the fort till the allies came to the rescue.

What Colonel Bryan long ago knew about militarism is now being found out in Europe.

Germany is not sending out any news, hence it is the John Lind of the warring nations.

The crowned heads of Europe probably regard each other as prevaricators of the natural born class.

"The die is cast" is what about a thousand American papers said the same day. So it was, and now the Christianity of the world is overcast with horror.

"Roosevelt should be heard," declares the Philadelphia Press. He ought to let up long enough for people to read the war bulletins sent out by the Ananias club.

The Germans are getting the worst of the rumors but they are busy getting positions which will soon display the line of strategy upon which they propose to fight the war.

"We are standing at Armageddon," said a distinguished candidate for a third term in the White House, but it seems that Armageddon gave him the slip and landed in Europe.

An automobile manufacturer's advertisement says: "The horse is often tired and unfit for service but the automobile is never tired." The fact is, the blamed thing won't go unless it is tired.

Nobody has heard a calamity howl from any powder factory anywhere. All "civilized" nations buy powder and guns to destroy each other, and if it were possible each would like to have a thousand volcanoes to turn on each other.

The New Orleans States congratulated itself that it had refrained from saying "the die is cast," but it seems to have a standing mat for "dogs of war" and some of those old favorites which are handy in times when "grim visaged war" has to be laid over on the junk heap.

"Ring out the old, ring in the new!" When 1914 was ushered in with clanging bells and happy acclaim, had we a thought that in the mid-year we would look on at the wreck and ruin of nations and be living witnesses of a war that will bring a bloody indictment on civilization itself? Verily, we never know what a day may bring forth.

We are told that there are many Roosevelt Republicans in North Carolina. They could not possibly be Republicans and support the Roosevelt party, because its fundamental principles are the very opposite to that of a real Republican. A man would automatically cease being a Republican if he should follow a man whose cardinal doctrine is diametrically the opposite of the vital features of Progressivism. The only thing in common between Republicans and Progressives is protection, which is a policy and not a cardinal principle.

Owing to the fact that American interests are suffering enormously, while thousands of Americans are penned up in Europe on account of the war, President Wilson should intervene at once. If we have a right to intervene in some little two-by-four country, why is it not a good policy to intervene in a scrap that's about our size? An easy way for us to get into it would be to demand that Great Britain, Germany, Russia, Austria and France should halt right where they are and salute the flag or else make it necessary for us to seize the key to the whole situation and put it in our pocket.

DINNA YE HEAR THE SLOGAN?

Away with some of the lugubrious things one has to listen to from pessimists who see the whole world overshadowed by disaster on account of the war in Europe. We shudder for the people there and we sympathize with stranded or marooned Americans whose temporary lot in the old country is cause for regret, but there is nothing in it for courageous people to give more than serious consideration. That is about all it needs to give us in America, for we will refuse to regard temporary reverses as adversity, such as this country had during four years of civil war.

Americans in Europe may be having a hard time on account of the war, but a great deal of the hell in war naturally falls to the share of the innocent bystanders. No doubt the Europeans would like to do everything they can for visitors but it must be admitted that they have all they can do to take care of themselves. During war times each fellow has to shift for himself and get short shift at that.

People who are around in the neighborhood of war have to take what is coming to them and do the best they can. Some of us who were kids during our civil war know what it is to have been sandwiched between two hostile armies. Even people who were then well off contracted a ravenous appetite for cornbread, sorghum molasses and rye coffee, when they could manage to get the rye. Sometimes breakfast, dinner and supper were served in a lump at an early hour in the morning, and the balance of the day was spent in looking for something to go with the water next morning.

It was all the same with people who had a bale of Confederate script or hoarded gold and silver. There was very little to buy, or if there were it was not for sale at any price. People who think their lot is hard these fine times have never had to go twenty miles to get a bushel of meal and find everybody at home waiting on the front porch to see the forager return in triumph. Getting a sack of flour generally turned out to be a pipe dream. A side of bacon at times would look like the side of a house and a ham would create a bigger sensation than the rude alarm that "Sherman's army's coming."

Yet nobody turned white under the gills, and wherever there was a piano, "Dixie" was played for spite. "Maryland, My Maryland," "The Girl I Left Behind Me," "Bonnie Blue Flag," etc., rung out everywhere. The boys whistled the tunes, the girls sang and played, and many of them were so saucy that they played "The Rogue's March," if they didn't like some of the kind of soldiers passing by or butting in.

During war times in the Sixties, blue bloods and all sang "My Homespun dress is plain, I know, my hat's palmetto, too." and most of the time the dauntless women and defiant girls wore cotton frocks and hats of plaited shucks and wheat straw. "Haven't got a thing to wear" must have originated along about that time, but it's curious—the people laughed, jollied or sneered just as if they had no idea of being right at the jumping off place and ready to jump at the word go.

Everybody was too accustomed to the real thing to be disturbed by the thousands of rumors that were calculated to cheer or cause despair. There was grim patience and courageous endurance everywhere. The inevitable seemed to have lost its terrors. Thousands of soldiers passed, miles of artillery and wagon trains rolled by day jogged along or swept by at a full and night, great squadrons of cavalry gallop.

Now and then a few miles away artillery fire was heard and the rattle of musketry came as if in waves. Wounded men were sent to the rear and dead ones were buried in the woods or in the fields without coffins, to sleep in soldiers' graves, shallow, unmarked by stones or slabs, to be the last resting place of the unknown or forgotten dead. Families all over the South had letters pouring into them about a father, husband, son, brother or friend slain. Some of the flower of the country returned home with a leg or an arm cut off, or maimed for life, while still others were brought home wasted with disease. People got used to seeing dead and wounded men, but thought most of the living who could continue to live to fight.

Years afterwards, when peace came, people wondered how they stood it, endured it, survived it, but they did. Some of those who were "in between the lines" now hardly give it a passing thought. They have seen the plough share turn up the bones of men, with the mouldering cartridge boxes of dead soldiers containing a scrap of paper bearing their names. Some contained cartridges, or minnie balls, those death dealing missiles which sung and hissed and "slapped" when a man or an object was hit.

The old stagers who passed through it all, endured reconstruction and all its disaster, laugh at the psychological fear of the result of war in Europe. They endured horrors, passed through trials and came up through tribulation to lay the foundation of a new South, a new Union. To them it seems absurd that anybody should worry about the market for cotton and wheat and the getting of money. No war 3,000 to 4,000 miles away could possibly affect this country in any manner that should make anybody have a long face or appear to be struggling along under a load of worry.

Of course, we must expect to meet with temporary losses, disappointments and difficulties but they will be comparatively negligible. As a matter of fact the real prospect ahead of us is an opportunity such as living mortals never had. The veteran survivor of many a bloody battle, and the living women and boys who were "in between the lines", the background of the tragedy, will wonder that this is considered a time to take time to worry. They know that it is a good time to adopt a new slogan for going ahead.

WHERE THE PEOPLE LIVE AT HOME.

Last Thursday we were up in the Currie section of Pender county and picnicked with her splendid people at the Moore's Creek battleground, the scene of a triumph of the revolutionary heroes who struck a winning blow for American liberty in 1776. We enjoyed there a genuine Pender county feast, yielded by the marvelous productive bounty of that splendid land. It was not a feast imported from the West or anywhere else but one produced from the fat of the land. In the midst of a warm-hearted and hospitable people, we stood our ground against a spread that was good enough for all the warring monarchs of Europe.

The feast was a spread made up of Pender products, and all around were a lot of pretty Pender products that were not made to eat. Besides the meats, the viands, the pies, the custards, the cakes, the pickles, the preserves, and the whole layout, there were watermelons, cantaloupes, peaches, apples and grapes, all the finest and the best—the absolutely nonebetter kind.

We were in the midst of an agricultural country where almost everything under the sun will grow and yield to perfection. While there we got to thinking about cotton and about how the farmers of that section would come out in the face of the war in Europe, but we wasted every single thought we had along that line. When asked about the probable effect the war would have on the farmers in that community, one of Pender's leading men answered:

"This is a hog and hominy country. We don't know the war is on, from any effect it will have here, except that we will get more for what we sell. We make something to eat ourselves and to sell to others. Very little attention is paid to cotton by the farmers in this section. Some of the farmers plant cotton on the side, and make a bale or more per acre, but they do not grow enough to share in the worry over what the war in Europe will do to cotton."

Prosperous Pender is a good name for that versatile producing section of this unrivaled tidal part of North Carolina. The people live and board at home and they are well to do and happy. No rude alarm of war has any worry for them, except the great human sympathy of a truly Christian people for the Europeans who are called to slaughter.

THE NATION'S GARDEN SPOT.

While Europe is the seething theatre of war, the Atlantic Coast Line in a few days will send to the North and Central West an exhibit train to show what can be produced by peaceful avocation in the Nation's Garden Spot. The exhibit will be a great advertisement of the resources of North Carolina and other Southern States, and it is sent abroad to attract to this wonderful section a good class of people who want homes in a land of peace and plenty.

The display which the Coast Line will make on its itinerary through several States is a splendid one, and we have no doubt that such persistent and practical efforts by that great Southern railroad will have fine results in time to come. No efforts are being spared to attract to this matchless section of North Carolina a class of homeseekers who will find anywhere in this State a hearty welcome.

For a nation which had no direct interest in a war between the big powers, and which did not even want any war at all, poor little Belgium has had to bear the brunt of a terrible onslaught by the Germans. Men who a couple of weeks ago had no idea of being slain in battle now fill bloody graves by the thousands. The world will not be so apt to despise "grape juice diplomacy" when the European carnage is over.

CURRENT COMMENT.

He was only a dog—no, leave off that word "only," it sounds as if it might detract from his worth—Brock was a dog, a good dog, a friendly dog. He was intelligent and affectionate, jolly and playful, well-behaved and smart, and was well thought of by his acquaintances of the human species. Brock died last week, and the family in which he was a valued companion and a beloved pet have cause to be sad. They have lost a real friend, a friend without guile. "Only a dag!" How much better this old world would be if all men were as good and true as some dogs. God pity the man who, some time in his life, has not loved and been loved by a dog!—Laurinburg Exchange.

In spite of the doubtful attitudes regarding the good that will come to business, especially in the South, as a result of the wars of the Nations of Europe, quite an optimistic outlook is held by Julius Cone, of the Proximity Manufacturing Company, who believes that ultimately American products and American business will flourish greatly as a result. While he realizes the tie-up of international trade will likely continue until the war is ended, annulling the demand in Europe for American goods, he sees beyond the war a greater demand than has ever been known, offering a wonderful future for those men of this country who may be substantially fixed. One difficulty that the mills which manufacture colored goods are facing at present is dyeing material. "From 75 to 90 per cent of this is made in Germany," said Mr. Cone, "and I don't suppose that on an average the supply is enough to last over 60 or 90 days at the outside. The hosiery mills will have to make white socks." These, of course, would be entirely appropriate at this time. Under this difficulty the mills will be unable to make denims. If an outlet is found for brown cotton they will have to manufacture that. The Proximity Manufacturing Company is making its best efforts to get all the dyes it can and will try to run full time and full force. Each of the mills here makes colored goods. The operatives will go back to work Monday after a vacation of 10 days. Mr. Cone believes that if the war keeps on the United States will get all the German and English trade in South America.—Greensboro News.

From the beginning of the downward course in the cotton market, following the declaration of war in Europe, The State has been trying to point out that, even if the apparent disaster ran its course in the matter of the raw staple, there would be compensation in the capture of foreign markets by this country in the case of manufactured goods. For instance, it is estimated that the trade of South America with European countries amounted to $1,600,000,000 in 1913. In the fiscal year 1912-13 the trade of South America with this country was represented by these figures: Imports, $217,747,038; exports, $146,147,993; total $363,895,031. Europe's aggregate was considerably greater than four times ours. In South America alone we have the prospect of a permanent market open to immediate capture involving over a billion and a half dollars worth of trade an instant benefit, in which the cotton mills of the South would—well, we should say—conspicuously share. In addition, there is the difficult market of the Orient, with which America has never been able to get quite in sympathy, about which we have not the figures at hand, but which has for a number of years favored European at the expense of American manufacturers. We trust that the efforts of the administration, to which the President has given his sanction, may enable the grower of cotton to weather the storm until stable conditions arrive guaranteeing him a fair price for his product; but even if that hope should be in part disappointed, it seems clear that the conflagration in Europe must make for the trade prosperity and financial benefit of this country as a whole. In world-wide finance and industry today Peace is the gilt-edged asset!—Columbia State.

ROBESON DEMOCRATIC PRIMARY.

Certain Conduct Repudiated by the County Chairman.

To the Editor of The Star:

In view of the unfavorable and disgraceful manner in which some saw fit to conduct themselves at the primary Saturday and on account of the many adverse criticisms of Lumberton and Lumberton township that have gone over the State and county on acocunt of such conduct, as chairman of the Democratic party in this county and on behalf of the party, I wish to repudiate that conduct and impute it to persons who are not worthy of membership in our party or any other respectable political organization.

The use of money or other means of bribery in an election is deplorable, but when men attempt to and actually do cloud the brain of a voter with whiskey and reduce him to a maudlin state, they have not only corrupted the ballot but have made criminals of themselves as well as the voter. Any candidate who contributed the means to make this possible or who participated is unworthy of a Democratic nomination, to say nothing of being unworthy to fill the office to which he aspires.

As chairman of a great party in a great county and as a citizen of Lumberton and Lumberton township, I appeal to the civic virtue of our community to rise as one man and condemn such practices and say to any candidate who stands for such that you are unworthy of support and you can't get the vote of this township.

The law is ample to handle such situations and should be enforced by those who are in authority.

Very respectfully,
T. A. McNEILL, JR.
Chm. Ex. Com., Robeson County.

INTEREST IN WAR NEWS.

Hard to Get at Actually What is Happening in War Zone of Europe.

In spite of the lack of sensational development in the war news from Europe yesterday, there was apparently no abatement of the interest of the public in what is going on abroad and it was a dull moment yesterday that did not find a dozen or more persons interestedly scanning the bulletin board in front of The Star office, on Chesnut street.

An increasingly rigid censorship imposed on all matter in London with a minimum delay of 48 hours over the congested lines of the French Cable Company, the only direct line now in operation to Europe, has made the labor of the great news gathering agencies an arduous one and during yesterday and last night it was practically impossible for anybody to say what was actually transpiring within the military zone of Europe. There is said to be absolutely no direct communication with Germany or Austria by any routing. The Associated Press, the largest and most powerful news gathering agency in the world, which serves the Morning Star both during the day in a bulletin service and at night for regular news service, has been using with some success the wireless for its reports, but even these dispatches are subject to government control, and communication in this way across the sea has not yet gone beyond the experimental stage.

However, the Wilmington public may find satisfaction in the reflection that they are getting all the news that can be had from any reliable source and the resources of the all-powerful Associated Press may be depended upon to serve them when anything reliable filters through the maze of censorships and cable delays.

Important Notice To Skin Sufferers

Try this New Remedy at Our Risk

We know the successful treatment of Skin affections is difficult, and so much money is spent by sufferers without getting relief, that they are becoming skeptical and know not what to believe.

Our Generous Offer

Know, therefore, all persons who have any Skin affection that we will supply them with our new and wonderful remedy—Saxo Salve—*on the positive guarantee*—that if it does not benefit them we will refund their money as cheerfully as we took it.

There is no remedy that will cure every disease—but there are some that we know to be honest, reliable, and of great curative value. Such is Saxo Salve. No Skin Sufferer should therefore hesitate to try Saxo Salve on this generous offer. We take all the risk and bear all the expense if Saxo Salve fails—but as it succeeds in over 90% of the cases our risk is not great after all.

Do not Give Up until you have Tried Saxo

We always ask for trade on the basis of superior goods and service and right prices. We want your Drug Store trade.

THE LIFE WORK OF A NOTED CHEMIST

Polk Miller's Word as Well as His Skill Back of This Valuable Remedy.

The reaction from deadly drugs destroys the whealthy tissues of the body and leaves the system susceptible to other diseases.

This means that you must be constantly taking medicine to temporarily build up what another has torn down.

It is no small thing to have the finished product of this noted chemist within easy reach and at but little cost.

Polk Miller's Liver Pills can be procured at your druggists or at the country stores for 10c. a box.

They are safe and effective and not only cure sick headache, biliousness, etc. but if taken occasionally serve as a general tonic, keep the system invigorated and prevent such troubles as sick headaches, biliousness, piles, appendicitis, fistula and other troubles which come from a disordered liver.

Don't poison your system with calomel or weaken it with salts or stringent liquids.

Send for a free sample or buy a box from your druggist or general store now and let nature's own remedy restore you to normal health. Examine carefully the coupon you will find in each box—worth 2½c. Polk Miller Drug Company, Inc., Richmond, Va.

WATER CONNECTIONS LACKING FOR SEWERS

Efforts to Enforce Law Hampered, Says Dr. Nesbitt

Board of Health in Monthly Session Last Night Hears Reports of Department—Want Motorcycle for Plumbing Inspector.

After calling attention to a list of 184 citizens who have installed flush closets and are as yet deprived of the use of these closets because the city has not supplied them with lateral connections to the public sewer, Dr. Chas. T. Nesbitt, county health officer, in his monthly report to the County Board of Health last night, characterized the efforts of his department to enforce the law requiring sewer connections in the sewerage district as nothing more than persecution to the public.

There was little business before the board with the exception of Dr. Nesbitt's report and those of the other officers of the health department. The members of the board endorsed the report of Dr. Nesbitt and agreed that it should be given publicity by being published in the public press.

In the absence of Chairman M. S. Willard, who is in Baltimore with Mrs. Willard, who is ill in a hospital in that city, Mayor Parker Quince Moore presided over the meeting. The other members of the board present were Prof. Washington Catlett and Dr. J. H. Cranmer. Dr. Nesbitt was also present and a record of the proceedings was kept by Dr. John Thames, clerk of the board.

Communications from the board of County Commissioners and the City Council were read officially notifying the board of health that these two bodies had concurred in their recommendation that a motorcycle be purchased for the use of the sanitary police in the county. The board of health last night recommended that another motorcycle be purchased for the use of the plumbing inspector as it will greatly facilitate his work.

Lack of Water Connections.

Dr. Chas. T. Nesbitt, county health officer, in his monthly report to the board, called attention to a list of 184 citizens who have installed flush closets but are unable to use them because of a lack of water connections. The report in full is as follows:

"The Board of Health of New Hanover County.

"Gentlemen:—In addition to the foregoing reports I desire to call your attention to the appended list of citizens who have, in compliance with the law, installed flush closets and who are as yet deprived of the use of these closets by reason of the fact that the city of Wilmington has not supplied them with lateral connections to the public sewer.

"By referring to the list it will be found that 184 installations of plumbing have been made which are still useless. Eight of these installations were made and ready for sewer connection in February. Seventeen were ready for connection in March. Sixteen were ready for connection in April. Thirty-five were ready for connection in May. Thirty were ready for connection in June, and 78 installations made in July are still without connection to the sewer. A very large number of plumbing installations are still without water connection. The date on the lack of water connection is not yet completed.

"The plumbing inspector furnishes the Water and Sewerage Department each day with a list of the inspections of finished sewer installations that were made on the day previous. This is done in order that the Water and Sewerage Department may know precisely the amount of work ahead of them. In addition, this department furnishes at the end of each month a complete list of the plumbing installations for the past month to the mayor.

Many Complaints Received.

"This office is flooded with complaints from citizens who bitterly resent having been compelled to expend money in improving their property and then being prevented from obtaining the benefit of expenditure through failure on the part of the Water and Sewerage department to provide sewer cannection. These complaints are completely justified, and this department under the existing circumstances will be compelled to abandon its efforts to secure compliance with the law compelling sewer connection in the sewer area unless some provision is made by the city for prompt and systematic service in their department. We feel that under the existing circumstances the effort to enforce this law is nothing more than persecution to the public.

"The same situation exists with reference to the enforcement of the law forbidding surface closets. When we bring prosecutions under this law and secure conviction the citizens prosecuted practically without exception install plumbing and flush closets. Sewer and water connections are not supplied these citizens promptly and the effect of the prosecution is lost. One citizen who was convicted of violation of this law more than six weeks ago, immediately installed 13 flush closets on his property. These closets are still useless through lack of water connection. This is but a single instance of many a like nature.

"Practically all of the typhoid that has appeared during the year among our citizens can be definitely traced to fly infection and soil and water pollution in private supplies. This department has made unremitting effort to abolish the closets which furnish this pollution and this delay in installing sewer and water connection is destroying our effort.

"Respectfully submitted,
"CHAS. T. NESBITT,
"County Health Officer."

Statistical Report.

During the month of July there were 71 births, 32 of these being white and 39 colored. There were 62 deaths reported, 22 of these being white, one a Chinaman, and 39 colored. The total number of non-resident deaths was 10, five being white, one being a Chinaman, and four colored. The number of deaths of persons under five years of age was 23, seven of these being white and 16 colored. The temporary death rate per thousand including both white and colored, was 19.8. The temporary death for whites was 12.2 and for blacks 28.5.

Report of Dr. Thames.

Dr. John Thames, assistant county health officer, submitted his report for the month of July which showed that he made 50 visits to indigent sick in the city and six in the county outside

(Continued on Page Eight.)

PLAN AGENCY IN CHARLOTTE

To Handle Produce Raised on Colonies in This Section—To Operate Next Season.

Mr. Hugh MacRae is planning to establish an agency in Charlotte to handle the vegetables and produce raised on the colonies of the Carolina Trucking Development Company at Castle Haynes, Van Eden, St. Helena and Newberlin. The present season is too far advanced to attempt to put the plan in operation this year, but next spring will find the agency ready to handle the surplus products of the colonists.

Mayor Chas. A. Bland, of Charlotte, and several prominent business men of the Queen City, while at Wrightsville Beach this summer, took the matter up with Mr. MacRae and promised him the enthusiastic support and co-operation of the people of Charlotte. They stated that there had been recently considerable difficulty in getting a steady supply of good fresh vegetables and produce equal to the demand in Charlotte, and that they would welcome such an enterprise as is planned by Mr. MacRae.

The idea, Mr. MacRae says, will be to have a co-operative association formed among the members of the various colonies, and to open the agency in Charlotte wth a salaried representative in charge.

The produce will be shipped to Charlotte in bulk daily, in car load lots, whenever possible, and distributed by the agency there direct to the consumers. This will eliminate commission men and retailers' profits, and at one and the same time insure the consumers a source of fresh produce at lower prices than under the ordinary system of marketing, and also pay the producer a better profit for his products.

The association, Mr. MacRae says, will plan the crops systematically, so that they will mature in uniform rotation throughout the summer, and afford a constant supply of seasonable vegetables to be marketed through the agency.

Mr. MacRae is confident that the plan will be a success from the very start. The co-operative idea has been tried out in other cities and communities in many different States and countries, he points out, and always with a resultant benefit both to consumer and producer.

REAL ESTATE TRANSFERS.

Number of Papers Filed for Registration Yesterday.

A number of deeds were filed for record yesterday, including right of way transfers to the Tidewater Power Company and to Mr. A. W. Pate, trustee, for the Wilmington & Carolina Beach Railway Company. Among the instruments recorded were the following:

Rebecca W. Brown Anderson, of Fairfield, Conn., to Margaret Anderson Calhoun, of the same city, for $1 and other considerations, lot on west line of Dickinson, 66 feet south of Miller street, irregular in size.

Fannie G. Pritchard and Thos. W. Davis, trustee, to C. A. Dulin, for $252, lots 11 and 12, Villa View; W. A. Dick, trustee, to W. H. Eubank and wife for $10 and other considerations, lot No. 61, Carolina Court.

Southern Realty & Development Company to A. L. Baskin, of Florence, S. C., for $10 and other considerations, lots 82 and 83, Lake Side Park.

Martin S. Willard and wife to Annie May Farrar, for $75 and other considerations, lot on northwest corner of Third and Martin streets, 66x75 feet in size.

American Suburban Corporation to Tidewater Power Company, for $1 and other considerations, right of way over Perry avenue, eastwardly from its intersection with 17th street and thence southwardly along 20th street to, into and over Wrightsville Boulevard, Carolina Place.

Fidelity Trust & Development Company, to A. W. Pate, trustee, for $1 and other considerations, lots 29 and 30 in Block 14 and lot 23 in Block 24, Sunset Park, also right of way for single or double track railway over Monroe street, Sunset Park.

New Hanover Transit Company to J. W. Blake and wife, for $100 and other considerations, lot No. 1 in Block 46, Carolina Beach.

Fidelity Trust & Development Company to A. W. Pate, trustee, for $1 and other considerations, lots in Sunset Park as follows: Nos. 19, 20 and 21 in block 19; No. 21 in block 20; Nos. 5, 6 and 7 in block 26, and Nos. 4, 5 and 6 in block 27.

A. W. Pate and others to A. W. Pate, trustee, for $1 and other considerations, 100-foot right-of-way through Carolina Beach property.

NOTICE TO MARINERS.

Changes in Lights on Cape Fear River to Be Made Soon.

The current number of Notice to Mariners, issued from Washington carries the following notice in reference to changes to be made in range lights on the Cape Fear river about August 15.

Cape Fear River—Changes in lights to be made, about August 15, 1914.

Bald Head range front light; white sector of 160 candlepower to be installed between 185 degrees and 215 degrees.

Keg Island channel range light; intensity to be increased to 160 candlepower; red sector of 50 candlepower to be installed between 258 degrees and 288 degrees.

Big Island channel upper range light; intensity to be increased to 160 candlepower; red sector of 50 candlepower to be installed between 243 degrees and 273 degrees.

The following lights to be changed to fixed red of 50 candlepower: Keg Island channel range and Big Island channel upper range, front light for both. Big Island channel lower range front light. Lower Brunswick channel range front light. Upper Brunswick channel range front light. Fourth eastern jetty range front light. Clarks Island range front light.

The intensity of the following lights to be increased to 160 candlepower: Big Island channel lower range rear light. Lower Brunswick channel range rear light. Upper Brunswick channel range rear light. Fourth eastern jetty range rear light. Clarks Island range rear light. Eagle Island light.

The illuminating apparatus will be changed from post lanterns to lens lanterns, excepting in the case of Bald Head range front light which will remain unchanged.

MR. KENLY IS OPTIMISTIC

Head of A. C. L. Thinks United States Will Not Suffer Greatly as a Result of the War.

In an interview given out yesterday, Mr. John R. Kenly, president of the Atlantic Coast Line, expressed the opinion that neither the South nor the United States as a whole need have any fear of the effects of the European war upon business, provided a conservative policy is pursued and patience is exercised by the farmers and business men.

Mr. Kenly believes it inevitable that business will slow down to some extent during the period of the conflict, but he hardly thinks that this will be so pronounced as has been predicted by some of the business men of the country.

England, Mr. Kenly thinks, will be able to carry out her plan and sweep the sea clear of hostile ships, and by bottling up the German fleet in the North Sea keep the channels of ocean commerce open to some extent, thus leaving the ports of other countries with the exception of Germany open, and offering the United States greater opportunity for foreign trade than any other country.

The most serious handicap in the way of realizing fully on this opportunity, he thinks, is the lack of an adequate merchant marine in this country, as comparatively few foreign ships will be able to take care of the traffic. Many European merchant vessels will necessarily be impressed into service as transports, colliers, etc.

Speaking of the South's two big export assets, cotton and tobacco, Mr. Kenly pointed out that fortunately they are imperishable, and even a delay of several years would not cause a deterioration.

Mr. Kenly does not see any danger ahead in the way of a money panic. He thinks there is plenty available in the country, and that the United States has nothing to fear from such troubles.

Mr. Kenly characterizes the present European hostilities as the world's greatest crime and the greatest outrage on civilization the world has ever known. He believes that the war cannot last for any great length of time, especially with Russia, Great Britain and France lined up against Germany and Austria. Also, he expects the war to be the bloodiest in the history of the world because of the high efficiency of the modern machines of war.

LONG TIME TO BUILD.

Charles Walker Will Complete House Started Seven Years Ago.

Seven years ago Charles Walker, colored, started on the construction of a ten-room residenec on Second street, between Dawson and Wright, but his money gave out before he got the building completed and he stopped. The chimneys and a part of the frame work has been standing since and exposure to the weather has caused some of it to fall down.

The other day Fire Chief Schnibben, who is also building inspector, was making a tour of inspection of that part of the city and noticed the old building. He told Walker that before he could resume work on it he would have to have a building permit. Walker started that he got one seven years ago, but Chief Schnibben told him that it was out of date and so yesterday the negro got another.

A building permit was issued yesterday to Joe Johnston for an addition of two rooms to a house on Princess streets between Tenth and 11th at an estimated cost of $300, and to Carrie Hankins for an addition of three rooms to a house on Seventh street between Ann and Nun at a cost of $150.

BEFORE THE RECORDER.

Colored Boys Tried for Temporary Larceny of Horse—Judgment Open.

James McBride and Johnnie Cooper, two colored boys, were before the Recorder yesterday on a charge of temporary larceny of a horse. Judgment was left open until today and they were sent to jail. Tehy found the horse hitched at Front and Chestnut streets and drove it to Wrightsville Sound when they were overtaken by Policeman Joe Lane. One of them was arrested and the other made his escape, but was arrested Monday night.

David Merritt, colored, was sent to the county farm for 30 days for vagrancy but final judgment was left open until today. Judgment was changed in the case against Chap Taylor, colored, charged with carrying concealed weapons, from three months on the roads to payment of the costs.

Illustrated Lecture.

Representing the Barber Asphalt Paving Company, Mr. Lockwood and Col. Foote gave an illustrated lecture on the asphalt industry in the office of the mayor at the city hall yesterday afternoon at 4 o'clock. The moving pictures showed the asphalt being mined at Trinidad Lake and Bermudez Lake, the two great asphalt mines, how it is transported, refined and the various processes that it goes through in being prepared for street paving. Pictures were also exhibited showing the methods of laying the paving. The lecture was attended by the mayor, members of the city engineering department and other municipal employes.

Putting Down Tarvia.

Under the supervision of Mr. J. C. McAllister, superintendent of streets, the city street forces yesterday were busy resurfacing Fourth street, between Queen and Wright with Tarvia A, a street dressing. Today the men will put a layer of Tarvia on Second street, between Orange and Market, which has only recently been improved with clay gravel. While the work is in progress portions of the street will be closed, but will be re-opened at night.

Well Known Colored Man Dead.

Jas. L. Mosley, a well known colored citizen of Cape Fear township, died at his home at Wrightsboro Monday night. He was native of Brunswick county and was 62 years old. He had been sick for several months. Surviving him are his wife and one daughter. He had many friends in the county and was well thought of by all who knew him.

Postoffice Was Closed.

The postoffice here was closed yesterday afternoon from 3:30 to 4:30 o'clock, during the burial services of Mrs. Woodrow Wilson, wife of the President of the United States. An hour's difference exists between the time here and at Rome, Ga., where the services were held.

MARKET STREET TO BE PAVED WITH BITULITHIC

City Will Bear Entire Expense of Improvement

Decision Reached at Special Meeting Yesterday Morning—Will Cost About $37,000—Bids to be Asked.

City Council, in special session yesterday morning, decided in favor of the immediate improvement of both sides of Market street, from 10th to the city limits at 17th, with bitulithic, the entire expense of the improvement, which will approximate $37,000, to be borne by the municipality. A resolution authorizing the improvement will be adopted at the weekly meeting of Council this morning, and bids will then be advertised for under specifications prepared by the City Engineer.

The meeting yesterday was attended by a number of citizens interested in the improvement for one reason or another. Some were property owners along the street, while others are interested because the thoroughfare is the principal approached to Carolina Heights, and Carolina Place, two of the most important residential suburbs of Wilmington, which are to be taken into the corporate limits of the city at the next session of the Legislature.

As originally contemplated, the improvement of Market street was to be done on a basis of the city's bearing two thirds of the expense and the property owners the other third. A number of the property owners, according to a statment by Councilman Merritt yesterday morning, had expressed their willinginess to have the work done on such a bisis, but others had told him that it would work a real harship on them to contribute anything to the expense of the improvement. Mr. Merritt said in view of the fact that next year would bring a new assessment of property, and that the proposed improvement would so enhance the value of the property along the thoroughfare that the city would soon recover the amount expended in increased taxes, he thought that the municipality could well afford to bear all the expense. Mr. Merritt said that it had been suggested that the assessors add 10 per cent to the valuation of the property along the improved street, to cover the cost of the work. City Attorney Bryan, however, pointed out that this could not be done as a fixed agreement, for the assessors would have to be guided in making the valuations by the assessed value of property in other sections of the city, on a pro rata basis of course.

Councilman Merritt presented Mr. Woodruff, of the Warren Paving Company, who stated that his company would undertake the improvement of the street with bitulithic at a price of $2.19 a square yard, which would bring the cost of the work to an approximate total of $37,000. His company, he said, would be willing to take the notes of the city for the amount, to be made payable in one, two, three, four or five years as Council might desire, the notes to bear interest at six per cent. Mr. William Struthers, Jr., one of the citizens present, offered the suggestion that five notes be given, one maturing each year for five years.

Councilman Loughlin pointed out that the assessed valuation of property abutting on streets recently improved had increased from five to 20 per cent.

Mr. J. Allan Taylor urged the improvement of the street and thought the paving company's proposition was a very good one. Mr. Taylor does not own any property on Market street, but he pointed out that it was an improvement that would benefit everyone in the city, and he felt sure that the increased valuations as a result of the improvement would more than recompense the city for the expenditure. He felt sure that Council could do nothing that would meet with more populah favor than to undertake the immediate improvement of Market street. Messrs. Thos. H. Wright and C. C. Chadbbourn also urged Council to make the improvement.

Councilman Merritt moved that the street be improved with bitulithic and the motion was seconded by Councilman Loughlin and duly passed. The city attorney was instructed to prepare the proper form of resolution authorizing the improvement, for passage at the meeting this morning. Following the adoption of the motion Col. Walker Taylor, in behalf of the citizens, thanked Council for deciding to make the improvement.

Councilman Merritt called the attention of the members of the body to the death of Councilman D. N. Chadwick's father, and upon his motion to clerk was instructed to draft a letter to Mr. Chadwick, expressing to him the sympathy of his colleagues in his bereavement.

Mayor Moore stated that he had received a communication from Dr. C. W. Stiles, in charge of the marine hospital, asking that police patrol be used as an ambulance in emergency cases. Councilman Jones stated that this custom already prevailed.

Councilman Jones reported that complaint had been made relative to the late hours kept by some of the colored dance halls. The members of Council were of the opinion that the halls should be closed not later than 12 o'clock.

COMPANY IS ORGANIZED.

Officers and Directors of Fayetteville Steamboat Corporation

The following from yesterday's Fayetteville Observer, with reference to the organization of the Fayetteville Steamboat Company, will be of interest here:

"The stockholders of the Fayetteville Steamboat Company met Monday and elected directors and officers for the company as follows: Directors, J. H. Culbreth, B. R. Huske, J. F. Gilmore, C. D. Hutaff and S. P. McNair. The officers elected are as follows: J. H. Culbreth, president; C. D. Hutaff, vice-president, and J. F. Gilmore, secretary and treasurer.

"The directors decided to move at once and secure a boat for the river, to be put in service as soon as possible."

Misses Blanche Mitchell and Gladys Davis, of Roanoke, Va., are the attractive guests of Mrs. L. H. Keen at her home on North Fourth street.

• • •

Miss Arra Perry has gone to Fair Bduff, where she will visit Miss Mattie Lou Anderson. Before returning home she will visit relatives in Whiteville.

• • •

Mrs. Ed. Taylor, who is spending the summer at Hampstead, spent Monday night in the city en route to Goldsboro to visit relatives for a few day.

• • •

Mr. Benjamin Bell, Jr., of the editorial staff of the Richmond Times-Dispatch ,has returned to his work after a short vacation spent with relatives here.

• • •

Mr. Henry Murphy, of Hamlet, left yesterday morning for Clinton to visit relatives after spending several days with his mother, Mrs. S. M. Murphy, on Wrightsville Sound.

• • •

Mrs. Henry Cabell Bentley, of Richmond, Va., has arrived in the city from Virginia Beach, Va., where she spent six weeks, and is visiting her sister, Mrs. Y. A. Wortham, on Chesnut street.

• • •

Maj. W. N. Harriss, clerk of Superior court, returned yesterday from Linville, N. C., where he spent a week. Mrs. Harriss, who accompanied him to Linville, will remain at the resort for some time longer.

• • •

Dr. D. W. Pratt, a student of Vanderbilt University, has returned home to spend his vacation. He was accompanied home by Mr. Frank S. Washburn, of Nashville, Tenn., who will spend some time in Wilmington as his guest.

• • •

Rev. W. E. Cox, rector of St. John's church, and Mrs. Cox returned yesterday from Winterville, where they attended on Saturday the funeral of Mr. Cox's sister, Miss Magdaline Cox, who died at Southern Pines on Thursday. Rev. and Mrs. Cox will be in the city over Sunday and will leave next week on their vacation.

• • •

The Parish Guild and Woman's Auxiliary of the Church of the Good Shepherd will give a trolley ride to Wrightsville Beach on Thursday evening, August 13th. Cars will leave Front and Princess street at 8 o'clock. The fare for the round trip will be 25 cents. Returning the cars will leave Lumina at 10:45 o'clock.

• • •

A wedding of interest to many friends will be that of Miss Delamar Burbank, daughter of Dr. Thos. S. Burbank, and Mr. E. F. Peschau, which will take place on Wednesday evening, August 19th, at 6 o'clock at the home of the bride-to-be's father, corner Fifth and Market streets. They will leave on the evening train for their bridal tour which will include visits to a number of northern cities. It will be a quiet affair and will attended by only a few relatives and intimate friends.

• • •

Mr. and Mrs. B. F. Keith, who are spending the summer at their plantation at Keith, on the Black river, were in the city yesterday in an effort to get into communication with their daughter, Miss Lila Keith, who is a member of a party touring Europe. Nothing has been heard from Miss Keith since August 1st, at which time she was in London, and expected to leave immediately for Glasgow, Scotland. Mr. and Mrs. Keith are anxious to hear from her, though they are reasonably certain that she is safe, and that the failure to hear from here is due to delayed mails and the congested condition of the cables.

• • •

SURPRISE WEDDING
YESTERDAY AFTERNOON

Of interest to many friends in the city and elsewhere will be the announcement of the marriage of Miss Mary A. Michaux, of Sumpter, S. C., and Mr. J. Edward Brogdon, of Montgomery, Ala., at the home of the bride's brother, Mr. L. B. Mitchaux, 7t Carolina Place, yesterday afternoon at 6 o'clock. The ceremony was performed by Rev. J. D. Bundy, pastor of Grace Methodist church. The wedding came as a complete surprise to their friends as they had made no announcement that the happy event was to take place at this time.

Mrs. Brogdon was here on a visit to her brother, Messrs. W. F. and L. B. Michaux. Mr. Brogdon came to visit her and it was decided to have the wedding here. Only member of the family were present at the marriage. They left on the evening train for Montgomery, Ala., where they will make their home.

The groom is a native of Sumter, S. C., but has lived for several years in Montgomery, Ala., where he holds a postition with the Atlantic Coast Line. The bride is a young lady highly esteemed for her charming personality.

Wrightsville Beach

Including in the arrivals at the Oceanic Hotel yesterday were A. W. Bradley, Atlanta; J. S. Johnson, Baltimore, Md.; Mrs. S. Sutton, Fayetteville; R. S. Smith, Charlotte; H. L. Bowyer, Savannah, Ga.

Among those registered at the Seashore Hotel yesterday were Mr. and Mrs. A. B. Lewis, Chadbourn; F. S. Earnshaw, Canton, Ga.; Mrs. H. W. McLaurin and children, Laurinburg; Mrs. W. B. Babcock, Garland; Mrs. J. R. Hiatt, Clinton; Mrs. D. MacH. MacKay, Asheville.

Miss Chanler and Mr. West last night repeated the Chinquante-Chinquante, a catchy Spanish folk dance, which has been adapted by them to modern music. Skillfully and artistically they rendered the difficult dance in a manner that brought warm applause from the audience. Tonight they will dance the Russian Mazurka.

Tonight will be "balloon night" at Lumina. Hundreds of tiny balloons will be liberated from time to time by the audience and will provied a pretty sight. On Thursday night the clock dance will be given with several variations from the way it has been given on several recent occasions at Lumina. This has p roven to be a popular feature with the hundreds that visit this popular pavilion.

The young people's one-step contest at Lumina last night was a decided success and was witnessed by a large audience. The winners of the two handsome cups offered as first prize were Miss Carolina Bear and Master Abraham Solomon. Consolation prizes were given the other contestants. The red ribbon couples dancing in the final contest besides the winners of the cups were Miss Laura Parsley and Master Morgan Fenley and Miss Alice Stearns and Master Tommie Wylie. Those dancing in the semi-final besides these couples were Miss Dorothy Simmons and Master Henry McGowan and Miss Mary Scott and Master Morrison DeRosset. The judges for the contest were Miss Elise Lloyd, of Durham, and Mr. and Mrs. Carpenter, of Columbia, S. C.

LOCAL DOTS.

—Evelina Brooks and Effie Murphy, both colored, were arrested last night by Plainclothesman D. W. Coleman and lodged in the city prison on a charge of vagrancy.

—The British steamer Cayo Manzanillo, 2,273 tons, Capt. Hunter, cleared from this port yesterday afternoon for Savannah, Ga., with a part cargo of fertilizer. She was consigned to Henry Whyte.

—Mr. A. P. Southerland, who runs a store at Macomber's station, will be tried today before Justice Harriss on a charge of assault with a deadly weapon. Dave Lemons, colored, alleges that Mr. Southerland drew a gun on him.

—Mr. R. L. Burton, who runs a store at Sixth and Nixon streets, will be tried before the Recorder this morning on a charge of selling Jamaica ginger. He waived examination before Justice Harriss on the charge yesterday and gave bond in the sum of $200.

—Mr. E. S .Waddell will be tried in Justice Harriss' court Friday afternoon on a charge of disposing of mortgaged property. The warrant was sworn out by K. C. Sidbury, Esq., and it is alleged that he disposed of two pianos. Mr. Waddell denies the charge and says that he can get the pianos at any time when they are called for.

WANT PRICE REDUCED.

Grocers Consider Rise in Cost of Bread Last Night—No Action.

For the purpose of considering the recent increase of from 3 1-2 to 4 cents a loaf made by bakers to merchants on account of the increased cost of flour, a meeting of a dozen or more grocers in the city was held last night in the store of Mr. H. W. Konig, on North Fourth street. The matter was discussed at considerable length, but no action taken. It is probable that another meeting of the retail grocers will be held in a short time to give further consideration to the increase in price.

The movement to keep the price of bread at its former level is mostly confined to grocers doing business in the residential district of the city. The larger grocery concerns in the downtown district are of the opinion that the bakers are doing the best they can under the circumstances, and believe that bread will go back to its former price when business conditions are more settled.

Mr. S. D. Bryant, who conducts a store in the northern portion of the city, issued the call for the meeting last night. It is understood that the grocers concerned in the movement contemplate forming a corporation to operate a cooperative bakery or else cease handling bread altogether in case the price of bread to them is not reduced by the bakers.

NICARIA IN PORT.

Mail Transferred Here—Cargo to be Transferred.

The Hamburg-American Line steamer Nicaria, which put into Southport some days ago because of the danger of capture by English or French war vessels, came up the river to the city yesterday morning, and will discharge her cargo of coffee here, transferring it to the Clyde Line to be carried to New York.

The steamer also carried five sacks of mail and 31 loose letters, from Santos and the Barbadoes, for New York; and other points. Postmaster H. McL. Green received the mail, and it was forwarded by mail to New York. Two of the sacks had been gnawed by rats and Dr. C. W. Stiles, in charge at the Marine hospital here, wired Washington for instructions before he would let it go forward. He felt that there might be some danger of bubonic plague inflection. However, the officials at Washington, after being advised that the ship had been fumigated at the quarantine station at Southport, wired back to forward the mail at once.

The Wonder of People From everywhere—Lumina. Be one of the crowd tonight.—Advertisement.

THEATRICAL

Again yesterday eagerly expectant folks flocked to the Grand Theatre and, after spending an hour in this up-to-the-second and delightfully comfortable resort, left singing the praises of the theatre. It is ever so, as the Grand is the joy spot of Wilmington. Every day is feature day at this theatre, and bear in mind that tomorrow rolls around another "Extraordinary Feature Day," when Mr. Daniel Frohman will offer the noted and charming actress, Hazel Dawn, and the Famous Players Company in the great dramatic success, "One of Our Girls." It is a wonderful four-reel Frohman production, which Wilmington theatre-goers should certainly not miss. It's just the same as witnessing a Broadway production. It cost something to offer these films in Wilmington, but the Grand is the theatre that has enterprise enough to do so.

But today's show: It is a rouser in every way, and is not without its big and brilliant feature film, which is Selig's great success, "Me An' Bill." It is a two-reel subject and one of the best ever flashed on a screen.

The Vitagraph will also set forth its latest and greatest today in "Marie's Sacrifice," which is a story of Italian life in the big cities. It is full of heart interest and thrills. Such well known players as William Humphrey, Eulale Jensen and S. Rankin Drew appear in the cast.

Edison also presents a great one today in "The Basket Habit." It's a rich, roaring comedy, and clever Elsie McLeod and Arthur Housman are in the cast. It's a peach for genuine, wholesome chuckles.

Big Bijou Feature Today.

Away above anything else will be today's mammoth bill at the favorite theatre of Wilmingtonians, this being one of the real feature days of the week, if such as "feature days" can be distinguished in the every-day all-star bills presented by the enterprising management.

Today the Bijou will present as a top-liner to its bill one of the biggest productions of the year, a brand new release under date of August 2nd, "The Love Victorious." This is a mammoth Gold Seal allegorical drama, and its main points is to demonstrate the human frailty. It's an allegory of the fall of woman through the agency of Evil and his side partners, Vanity, Flattery, Lust and Vice, and her redemption through the instrumentality of the Christ Spirit as symbolized in the Good Man. The sordid and the beautiful, all the attributes of Good and Evil are personified, and each plays his part in this figurative pageant of human life. It is a masterpiece of screen drama, a great story of human interest, passionate and one that will long stand as the best allegorical play ever produced upon the screen. It is in three full reels, and there isn't a dull moment in it.

"Our Mutual Girl" will come next to relax the minds of the crowd, and will detail chatper number 21 in her interesting and varied experiences in New York city. Margaret is still lost, and the many efforts made to discover her whereabouts make one of the most interesting chapters in her career.

Remember—next Wednesday—today one week—the first installment of the "Trey o' Hearts" in three full reels, will be on at the Bijou.

FUNERAL OF MR. CHADWICK.

Services from Residence of Mr. L. W. Davis Yesterday Afternoon.

Attended by many friends from the city, the funeral of Mr. D. N. Chadwick, Sr., whose death occurred at his home in Atlanta, Ga., Monday morning, was conducted from the residence of his brother-in-law, Mr. L. W. Davis, No. 109 Church street, yesterday afternoon at 4 o'clock. The remains arrived on the noon Seaboard train yesterday and was accompanied by Mrs. Chadwick, Miss Clara Chadwick and Messrs. Herbert D. and Julius R. Chadwick.

Following the impressive services at the residence which were conducted by Rev. W. M. Craig, assistant pastor of the First Baptist church, the remains were borne tenderly to Oakdale cemetery for interment. The grave was covered with many beautiful floral tributes. A quartette composed of Mrs. Muse, Mrs. Longfellow and Messrs. Greene Fenley and Herbert Holden sang several selections at the home and also at the grave.

The pall-bearers were: Honorary, Messrs. John J. Fowler, Herbert McClammy, R. R. Bellamy, J. J. Hopkins and J. W. Yates; active, Capt. W. A. Sanders and Messrs. C. W. Polvogt, E. Fred Banck, J. M. Solky, J. W. Brooks and W. M. Cumming.

RETURN FROM VACATIONS.

"Cops" Back After Ten Days of Rest and Recreation—Others Go.

After ten days of rest and recreation on visits to friends and relatives Sergeant E. J. Grimsley, Policeman O. V. Thompson and Mr. W. T. Hansley, night chauffeur for the police patrol wagon, resumed their duties last night. Policemen H. G. Bullard, M. C. Huggins and A. E. Munn left yesterday on their annual vacation of ten days.

Sergeant Grimsley with his family visited relatives at Rosindale and later spent several days with his father, Mr. E. J. Grimsley, Sr., at Councils. Policeman O. V. Thompson and his family spent their vacation with his father at Bladenboro. Mr. Hansley visited relatives and friends at Rocky Point and also took a trip through Duplin, Pender and Sampson.

Sergeant Grimsley, who is a close observer of men and things, states that he found crops in splendid condition where he has been. He predicts a bumper yield of corn and cotton in Eastern Carolina.

PERSONAL PARAGRAPHS.

—Mr. Y. A. Wortham has returned to his home in this city after spending some time at Panacea Springs.

—P. P. Dulin, Esq., formerly of Wilmington, but now of Statesville, and his brother, Mr. C. C. Dulin, spent yesterday in the city on business.

Death of Aged Lady.

Friends will regret to learn of the death of Mrs. Temperance Murphy at the James Walker Memorial Hospital yesterday afternoon after a long illness. She was about 75 years old. She is survived by her sister, Mrs. Emma Caton. The remains will be taken to Kalb, S. C., for interment on the 5:25 train this morning.

DIED.

MOSLEY—At his late residence at Wrightsboro, N. C., at 1 o'clock P. M. Tuesday, August 11th, 1914, JAMES L. MOSLEY (colored), in the sixty-third year of his age.

Greatest Event in Woman's Life

All human experience looks back to motherhood as the wonder of wonders.
The patience, the fortitude, the sublime faith during the period of expectancy are second only to the mother love bestowed upon the most helpless but most marvelous creation—a baby.
Women are quick to learn from each other those helpful agencies that aid to comfort, that conserve their nervous energy and yet are perfectly safe to use and among these they recommend "Mother's Friend."
It is entirely an external application designed to lubricate the broad, flat muscles and skin that protect the abdomen. It has been in favorable use for nearly half a century and is known to mothers in almost every settled community in the United States who highly recommend it. You will find it on sale in drug stores. "Mother's Friend" is utterly harmless, contains no deadening drugs and yet its influence in the skin and muscles beneath as also upon the network of nerves beneath the skin is very beneficial, very soothing and a wonderful help. The muscles expand naturally and are not subjected to unnecessary surface strain and pain.
Get a bottle of "Mother's Friend" today at any drug store and write to us for our instructive little book to mothers. Address Bradfield Regulator Co., 413 Lamar Bldg., Atlanta, Ga.

LIVERPOOL COTTON MARKET.

Liverpool, August 11.—Five hundred bales of American spot cotton were sold here today on the basis of 6.50d for middling. Receipts were 10,000 bales, including 5,000 American.

DRY GOODS MARKET.

New York, August 11.—Because of threatened scarcity buyers of drygoods notions purchased today all lines of foreign supplies they could get. Cotton goods were quiet with prices holding generally steady. Yarns were irregular. Dress goods advanced and were in better request. Mens wear lines were firmer. Linens and buralps continued active and scarce.

COTTON SEED OIL MARKET.

New York, August 11.—Cotton seed oil was weak, closing 12 to 17 points net lower. Lack of demand for spot oil, coupled with the heaviness of lard products and liquidation by the South were the principal depressing factors. The market closed easier.

Spot 620@640, August 625@630; September 625@628; Ocotber 630@632; November 626@630; December 628@632; January 631@635; February 630@637; March 638@48. Total sales, 7,900.

NEW YORK PRODUCE MARKET

New York, August 11.—Raw sugar strong, molasses 462; centrifugal, 527. Refined, 50 points higher.

Butter and Cheese firm.

WHEAT PRICES TUMBLE.

As Result of Temporary embargo War Has Put on Grain Exports.

Chicago, August 11.—Tumbling prices today on 'Change gave evidence that the temporary embargo war has put on ocean shipments f rom the United States was not to be ignored. There was a nervous close in wheat at 2½c to 2¼c under last night. The outcome for corn was unsettled, ranging from ⅞c decline to a like advance. Oats gained ⅝c to ¾c. net Provisions in the end were 12½ to 85c down.

Grain and provisions closed:

Wheat—September 94½; December 1006.

Corn—September 78½; December 69⅝.

Oats—September 41¾; December 44⅞.

Pork—September 2195; January 2165.

Lard—September 955; October 972.

Ribs—September 1250; October 1217.

CHICAGO WHITE SOX SCORE DOUBLE VICTORY OVER NAPS.

Took Both Games of Yesterday's Double by Identical Scores.

Chicago, Aug. 11.—Chicago shut out Cleveland today by the same score, 2 to 0, in each game of a double header. Both contests were pitching duels. Weaver's triple followed by a fielder's choice, gave the locals the first game, while Collins' home run in the opening inning of the second game was enough to win. Jackson made a great run after Fournier's long fly, caught it and retired the side with the bases filled in the first game.

Cleveland . . . . 000 000 000—0 6 4

Chicago . . . . . 000 010 10*—2 7 2

CARDINALS DOWN GIANTS AND TAKE SECOND PLACE.

New York, Aug. 11.—St. Louis defeated New York today 3 to 2 in a game which was broken up by a thunder storm as St. Louis went to bat in the sixth inning. Single by Miller drove in the winning run in the third inning.

St. Louis .....012 00—3 6 2

New York .....011 00—2 4 2

Doak, Griner and Snyder; Mathewson and Meyers.

BRAVES AND REDS PLAY THIRTEEN INNING TIE.

Boston, Aug. 11.—Boston and Cincinnati played 13 innings to a scoreless tie today. Ames had the better of a pitching duel with Tyler's superb support saved the game for the latter.

Boston .....000 000 000 0000—0 5 1

Cincinnati ..000 000 000 0000—0 10 0

Tyler and Gowdy; Ames and Clarke.

ERRORS BY DERRICK AND SAIER CONTRIBUTED TO DEFEAT.

Brooklyn, Aug. 11.—Brooklyn won from Chicago in the rain today 3 to 2. The winning run came in the fifth inning on O'Mara's scratch hit, Daubert's sacrifice and errors by Derrick and Saier. Pierce was sent to the club house for talking from the bench and Bresnahan and Zimmerman for engaging in a fight.

Chicago .....200 000 000—2 8 3

Brooklyn .....000 210 00x—3 9 1

Humphries, Vaughan and Bresnahan and Archer; Ragan and Miller.

BY HARD HITTING PHILLIES DEFEATED PITTSBURG PIRATES

Philadelphia, Aug. 11.—Philadelphia won today's game from Pittsburg 5 to 4, by hard hitting. In the eighth the home team drove O'Toole off the rubber by making four singles before a man was put out. Lobert was benched by Umpire Johnson.

Pittsburg .....103 000 000—4 10 0

Philadelphia .....002 000 03x—5 12 1

O'Toole, Conselman and Gibson; Alexander and Killifer.

WATER CONNECTIONS LACKING FOR SEWERS

(Continued from Page Five.)

of city. The total number of patients treated as indigent in the city was 47, and the total number of patients treated in clinic was 38. The number of consultations outside of clinic was 10. The total number of permits issued to the James Walker Memorial Hospital was 64. There were 28 cases of typhoid fever reported, 20 of these being in the city, four in the county and four from outside of the county.

There are now in the city 48 cases of whooping cough in quarantine and one each of diphtheria, scarlet fever, measles and smallpox. In the county outside of the city there are 49 cases of whooping cough in quarantine, nine cases of measles and one case of diphtheria.

"I have made the regular weekly visits to the county home and jail," the report continues, "and also the various camps in the county. These institutions are all kept in as good sanitary condition as circumstances will permit with the following exception: Great difficulty has been experienced in keeping Camp No. 3 in a presentable and sanitary condition. The orders left at this camp are not properly observed, especially with reference to the disposal of garbage, cleanliness of the kitchen, and the care of the uncooked food. It is impossible to expect the jail to be put into a sanitary and habitable condition so long as the plumbing is defective and the disposal of sewage unsanitary. Attention has been called to this dangerous condition for several months but no change has as yet been made. East Wilmington Camp is without suitable drinking water except as is carted for a distance of a mile and a half. The pump on the grounds having shown signs of pollution was discontinued two months ago. Many of the prisoners at this camp are afflicted with some form of venereal disease which gives the camp at times, more the appearance of a sanitarium than a convict camp. No acute diseases have occurred among either the convicts or the inmates at the home during the month of July except one case of chills at Camp No. 3, which was contracted before entering the camp."

Financial Report.

The financial report for July for the health department is as follows:

Receipts—Balance on hand July 1st, $132.50; monthly appropriation from city of Wilmington, $1,431.56; monthly appropriation from county of New Hanover, $483.44; total, $2,047.50.

Disbursements—Salaries, $768.33; sanitary police, $530; disinfectants, $72.87; medicine for indigent, $46.75; anti-rabic serum, $105; printing, stationery and postage, $112.46; laboratory supplies, $50.63; maintenance of conveyance, $45.49; attendance of Board of Health, $93; uniforms, $15; contingent, $34.04; maintenance of incinerator, $407.75; total, $2,270.32.

Report on Water Supply.

Mr. Geo. F. Catlett, director of the city laboratory, submitted his report on the city water supply as follows:

"During the month of July the water furnished the city has been most excellent from a bacterial standpoint, and has also been excellent in color and general appearance.

"The figures and results of the investigation of the Cape Fear river and Toomer's creek waters have been tabulated and report made. This work includes a complete measurement of pollution in the parts of the Cape Fear and Northeast rivers available for a raw supply, and an investigation of color, turbidity and ease of purification. The results show:

"The sewage from the city is very highly diluted as it empties into the river.

"The Northeast branch receives most of this pollution on account of physical conditions, and has much less volume of water to dilute it than the Cape Fear proper.

"The Cape Fear proper receives a relatively small amount of the city sewage and has a very large volume of water for dilution.

"There is actually very little pollution found up this river and at Navassa there is little influence. The Toomer's Creek water is similar to the river Navassa. From a pollution standpoint this water would furnish an extremely light load for the purification plant.

"The Cape Fear water, though higher in turbidity, has much less troublesome color, and could produce a much better appearing water at much less cost than the present source.

"The pollution of the Northeast would be greater for the same distance than in the Cape Fear and in addition the color would be higher. It would therefore cost more money to purify this water and not so good results would be obtained as at present.

Milk Work.

"During this month milk samples from each dairy have been examined weekly instead of monthly as heretofore. This very much increases the laboratory work in this line.

"Besides the daily samples of raw and filtered water from the filtration plant, the following were handled during the month: Pump and well waters, 32; milks, 55; cream, 7; blood cultures for typhoid, 1; widal test, 1; feces, 2; wines, 2.

Milk Inspector's Report.

Dr. T. B. Carroll, meat and dairy inspector, submitted his report for the month which is as follows:

"I made 32 inspections of dairies and dairy farms; with one exception the sanitary conditions, health of cattle and attendants was good.

"The bacterial counts and butter fats average for the month are as follows:

	Bact. Per cc.	Butter Fat Pct.
Echo Farms	5,000	3.9
Klein Dairy	7,500	4
Darden	19,000	4
Newell	55,000	4.2
Rogers	91,000	4.6
Cape Fear	105,000	4.2
Collins	157,000	4.4
Kidd	166,000	4.1
Johnson,	173,000	3.9
Martindale	190,000	4.5
Gates (Warren)	1,700,000	4.9
Spencer	2,700,000	4.4
Barlow at dairy	4,000,000	4.4
Barlow at Warren's	5,000,000	4.4

"I made 629 examinations of fresh slaughtered meats as follows: 308 cattle, 312 sheep, and 9 hogs, with 3 cattle condemned and sent to the incinerator."

Other Reports.

The report of Mr. E. Piner, chief of the sanitary police, showed that during July there were 14,641 inspections made, 3,175 closets condemned, and 3,518 closets cleaned as reported by Mr. Holton. The number of complaints received was 239.

The report of Mr. Otto Genaust, plumbing inspector, showed that during July there were 131 plumbing permits issued, 285 fixtures installed, 131 sewer connections made and 274 inspections made.

We have something unique in the world —Lumina.—Advertisement.

THE CAREER OF LORD KITCHENER.

Famous Soldier's Second Experience Against Germans.

(New York Times.)

This is the second war in which Kitchener has taken part against the Germans. He was on a visit to France in 1870 and joined General Chanzy's army of the Loire, which undertook to rescue France after Paris was under siege. He assisted in this war by starting several balloon expeditions but had an attack of pneumonia soon after he joined the army and saw little actual service.

Horatio Herbert Kitchener is the son of Lieut. Col H. H. Kitchener and was born at Bally Longford, County Kerry, Ireland, on June 24, 1850. Entering the Royal Military Academy at Woodwich in 1868, he was appointed second lieutenant of the Royal Engineers in 1871. As a subaltern he was employed in the survey work in Cyprus and Palestine, and on promotion to the rank of Captain in 1883 was attached to the Egyptian army then leing reorganized by British officers.

In the following year he served on the staff of the British expeditionary force on the Nile. From 1886 to 1888 he was commandant at Suakin. Kitchener learned Arabic and studied the people he was dealing with by disguising himself as an Arab and mixing freely with them. His passion for work, his energy, and his command of detail earned for him the recognition of Sir Evelyn Wood and Lord Woolseley, who were at the head of the British army in Egypt. He made a real army out of the Egyptians and boldly grappled with the problem of protecting Egypt from the wild tribes.

Battles in the Soudan.

Kitchener's rise to notice was slow, because his army for a long period was only engaged in little fights. It was not until 1888 that he had trained his Egyptians until they could fight. In 1888 he attacked Osman Digna at Handub, the battle ending in a retreat. Kitchener himself leaving the battlefield with a bullet in his face. Later in the year he led a brigade of Soudanese over Osman's trenches at Gemaizeh.

Two years afterward he began the exploit which laid the foundation of his great fame, of the slow conquest of the Soudan, accompanied by the building of a railroad, which enabled him across the Soudanese desert before he swept the Dervishes. In 1892 he succeeded Sir Francis Grenfel as Sirdar or Commander in Chief of the Egyptian army, and entered upon the years of campaigning which utterly subdued the wild tribes of Egypt, pushing ahead his railroad to catch up with his military victories. In 1896 he won the notable action of Ferket and advanced the frontier and railway to Dongola, and was made a British Major General. A series of victories and advances, with the railroad always building in his rear, brought him across the Sudanese desert before Khartum, the stronghold of the Mahdi, the semi-civilized tribes which had overrun Egypt. Here the victory of Omdurman finished the conquest and placed the Egyptians and English in Khartum.

Raised to the Peerage.

Kitchener's work had received little recognition in England before Khartum. Then the thorough administrative work on his part gained universal admiration for him. He was raised to the peerage as Baron Kitchener of Khartum and received the thanks of Parliament and a grant of $150,000. Describing Kitchener at that time, George W. Steevens, the famous war correspondent, said:

"Major General Sir Horatio Herbert Kitchener is 48 years old by the book, but that is irrelevant. He stands several inches over six feet, straight as a lance, and looks out imperiously above most men's heads; his motions are deliberate and strong; slender, but firmly knit, he seems built for tireless, steel-wire endurance, rather than for power and agility; that also is irrelevant.

"Steady, passionless eyes, shaded by decisive brows; brick-red, rather full cheeks; a long mustache, beneath which you divine an immovable mouth; his face is harsh, and neither appeals for affection nor stirs dislike. All this is irrelevant, too; neither age, nor figure, nor face, nor any accident of person, has any bearing on the essential Sirdar.

"You would imagine the character just the same as if all the externals were different. He has no age but the prime of life, no body, but one to carry his mind, no face, but one to keep his brain behind. The brain and the will are the essence and the whole of the man—a brain and a will so perfect in their workings that, in the face of extremest difficulty, they have never seemed to know what struggle is."

Kitchener's work in Egypt was a great conquest with no great battles. Similarly, when in 1899 he was sent to South Africa against the Boers as chief of staff to Lord Roberts, he did not shine as a brilliant strategist, but did wonderful work in a practical way.

Gets Title of Viscount.

In June, 1912, when the long and harassing war came to a close, he was rewarded by the title of Viscount, promotion to the rank of general, and a grant of $250,000.

Immediately after the peace he went to India as commander in chief of the East Indies, and in that post, which he held for seven years, carried out many far-reaching administrative reforms. On leaving India in 1909 he was promoted Field Marshal and succeeded the Duke of Connaught as commander in chief and high commissioner in the Mediterranean. He undertook a tour of inspection of the forces of the empire and went to Australia and New Zealand to draw up local schemes of defense.

After his return to England in April 1910, however, he declined to take up his Mediterranean appointment, owing to his dislike of its inadequate scope. He was appointed British Diplomatic agent in Egypt.

Lord Kitchener has never distinguished himself so brilliantly in the field as many of England's generals, but there are many who consider him the greatest English soldier since Wellington. He has often been called by Englishmen "Our great patient general," a title which Lord Rosebery invented for him.

Business Locals

Advertisements inserted under this head, One Cent per word for each insertion, but no advertisement taken for less than 25c. Additional words more than 25, One Cent per word. Unless the advertiser has a regular account, all advertisements under this head are STRICTLY CASH IN ADVANCE, the amount being too small to warrant a charge. The Star will send without charge a Western Union Messenger to any address in the city, for advertisements in this department, upon request by 'phone to No. 51. Messengers will also call for Telegrams for the Western Union Telegraph Company, or for notes or small packages to be delivered anywhere in the city. No charge for collecting the telegrams, or advertisements for the Star, but a small charge for strictly Messenger Service. Telephone subscribers may at any time telephone their telegrams and bills will be rendered to suit the sender, daily, weekly or monthly. For this service, call "Western Union," but for advertisements always call the Star office. No. 51. Locals cannot be taken over the telephone — but upon request messenger will be dispatched to any part of the city for them.

NOTICE OF FORECLOSURE SALE.

By virtue and in pursuance of a power of sale contained in a certain mortgage deed executed on the 15th day of July, A. D. 1912, by D. R. Foster and wife, Anna S. Foster, to A. D. Wessell, which said mortgage deed is duly recorded in Book 69, page 178, in the office of the Register of Deeds of New Hanover county; and,

Whereas, By virtue of an agreement executed between D. R. Foster and B. F. King, Jr., which bears date the 16th of July, A. D. 1912, which agreement is duly recorded in the office of the Register of Deeds of New Hanover County; and it appearing in said agreement that the said D. R. Foster is holding said property for himself and as Trustee for B. F. King, Jr., under said agreement; and,

Whereas, Default having been made in the payment of the said amount contained in said mortgage above referred to, the undersigned mortgagee will, on the 25th day of August, A. D. 1914, at twelve o'clock M., at the Court House door of New Hanover county, sell at public auction to the highest bidder for cash, that certain lot, piece or parcel of land situate, lying and being in the City of Wilmington, County of New Hanover and State of North Carolina, and bounded and described as follows:

Beginning at a point in the eastern line of Front street one hundred and thirty-nine (139) feet south of the southern line of Dock street, and runs thence southwardly with the eastern line of Front street, ninety-two (92) feet; thence eastwardly and parallel with Dock street one hundred and sixty-five (165) feet; thence northwardly and parallel with Front street forty-two (42) feet and ten (10) inches; thence northwestwardly fourteen (14), feet, to Blake's corner; thence northwardly and parallel with Front street forty-eight (48) feet, more or less, to the line of E. M. Bellamy; thence westwardly and parallel with Dock street thirty-six (36) feet; thence southwardly and parallel with Front street six (6) feet; thence westwardly and sixteen feet (116) to the eastern line of Front street, the point of beginning. Being part of lots Three and Four in Block 139, according to the official plan of the City of Wilmington. Together with all the rights and privileges in and to a certain brick wall on the northern boundary of said premises above described, which were conveyed by John D. Bellamy and wife to A. D. Wessell by deed dated 6th day of November, 1911, and duly recorded in the office of the Register of Deeds of New Hanover County.

Said sale to be made subject to an outstanding easement and right of ingress and egress in, upon and over a strip of land at the southeastern corner of the above described tract, being a strip of land ten feet wide extending between parallel lines from the southeastern corner of the above described tract to A. E. Blake's line.

Place of sale: The Court House door of New Hanover county.

Time of sale: August 25th, 1914, at 12 o'clock M.

Terms of sale: Cash.

Dated and posted this, the 23rd day of July, 1914.

A. D. WESSELL, Mortgagee.
